How do you measure maturity and quality of your Security Operation Centre?

SOC assessment service delivers complex assessment of your SOC and helps you to identify strong and weak spots in the SOC function and delivered services.

The assessment enables to:

- Identify the **business** drivers and expectations of the SOC service,
- Find gaps in **team** and knowledge management,
- Evaluate existing **processes** and comparison with the industry best practices,
- Assess of how the implemented **tooling** is supporting the SOC function,
- Determine efficiency of the SOC **services**.

The result of the assessment is a list of the recommend actions, that are targeted to grow your SOC to the next maturity level and maximize its efficiency.

What will you get?

- Clear picture of the current maturity state of your SOC, with detailed breakdown in Business, People, Process, Technology and Services areas,
- Identification of strengths and weaknesses of your SOC,
- Clearly defined improvement steps to get your SOC to next maturity level,
- Roadmap for improving SOC services.

What we are offering?

Series of workshops with the SOC team and any other relevant stakeholders to understand the overall SOC governance, processes, team management and technologies implemented

Expert analysis of results to evaluate the current maturity state of the SOC in all assessed areas and to propose the improvement roadmap

Final workshop - presentation of the report and discussions on potential improvement actions
