Data & Analytics Strategy < <

Utilising the PwC Data Strategy Framework we typically follow a standard six-stage

PwC Data & Analytics Strategy – What You Get

PwC Data & Analytics Strategy – 3 Main Components

Data management encourages all team members to think of data as a business asset, rather than a byproduct of business operations.

Business Strategy

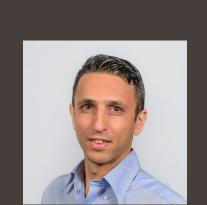

Your data strategy should be aligned and support your overall business strategy

Data architecture

Your data architecture consists of the tools and processes that allow you to work with and analyze data.
