Business Continuity Management

" Risk Assurance Leader: Bruce Scott

PwC's Business Continuity Planning services offers end-to-end solutions which bring the right blend of resources and a new focus on performance – a powerful combination – to help companies achieve business objectives and go far beyond checklists. Our team is focused on empowering GRC functions by helping clients anticipate and mitigate risks and support their strategic business objectives.

PwC's Risk Assurance practice within the Caribbean region consists of over 50 dedicated professionals with significant industry and technical experience in a broad range of risk and compliance areas. Our Risk Assurance practice can assist in determining effective risk management solutions to help meet a company's strategic objectives:

- Leverage industry and technical experience to help manage business risks effectively.
- Respond to stakeholder requests for transparency and assurance related to financial, operational, and compliance controls.
- Apply Enterprise Risk Management concepts to help identify, assess, mitigate, and proactively counter emerging risks

- Identify untapped opportunities to effectively mitigate risk and improve business performance.
- Provide in depth process and technology experience addressing financial and operational risks.
