A message from our CEO

These days, our society is changing at an unprecedented pace.

The COVID-19 pandemic provided an opportunity for the economy and society to remind us that our highest priority must be the lives and safety of people, and that the conservation of the global environment is essential to the survival of humanity.

It is the responsibility of companies to explain not only to their capital providers but also to a broad range of stakeholders throughout society that they are promoting the enhancement of corporate value through business activities that have a positive impact on the environment and society. We believe that a company can earn the trust of society only by considering the changes occurring in our society, identifying social issues that need to be solved, and engaging in dialogues with a wide range of stakeholders on how to further increase its corporate value. Amidst these social changes, PwC has established The New Equation as our new management vision, with the aim of meeting the critical needs that companies and organisations are under pressure to respond to. In this era of uncertainty where many companies tend to prioritise risk aversion, those who take bold action by seeing change as an opportunity will succeed in creating long-term corporate value.

We at PwC Advisory LLC have consistently provided support for everything from the formulation of transformation strategies utilising data analytics and AI to the concrete development and implementation of measures to increase corporate value, as well as strategies for communicating with internal and external stakeholders. We will continue to provide sincere support so that our clients can build relationships of trust with society and achieve sustainable growth.

Our mission

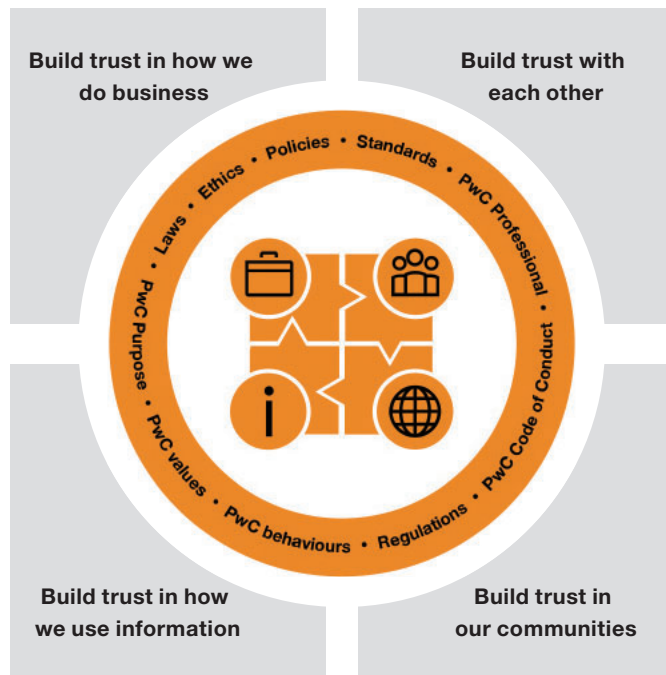

We strive to gain a deep understanding of our clients' stakeholders, and to provide integrated support to help our clients achieve a balance between environmental and social value and corporate value.

Code of Conduct

When working to build trust with our clients, society, and colleagues, we take responsibility for our own actions as we carry out our business activities.

At PwC, we work to improve our organisational capabilities while also meeting internal and external expectations and requirements. To achieve this, we use our Values and Behaviours to guide our daily actions.

Act with integrity

- Speak up for what is right, especially when it feels difficult
- Expect and deliver the highest quality outcomes
- Make decisions and act as if our personal reputations were at stake

Make a difference

- Stay informed and ask questions about the future of the world we live in
- Create impact with our colleagues, our clients and society through our actions
- Respond with agility to the ever changing environment in which we operate

Care

- Make the effort to understand every individual and what matters to them
- Recognise the value that each person contributes
- Support others to grow and work in the way that brings out their best

Work together

- Collaborate and share relationships, ideas and knowledge beyond boundaries
- Seek and integrate a diverse range of perspectives, people and ideas
- Give and ask for feedback to improve ourselves and others

Reimagine the possible

- Dare to challenge the status quo and try new things
- Innovate, test and learn from failure
- Have an open mind to the possibilities in every idea

Approach

By leveraging our core strengths in strategy, finance and M&A, we aim to create a better future with our clients.
