

Contract Information Converter

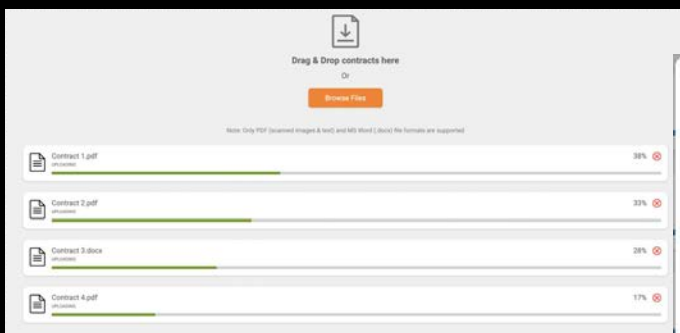

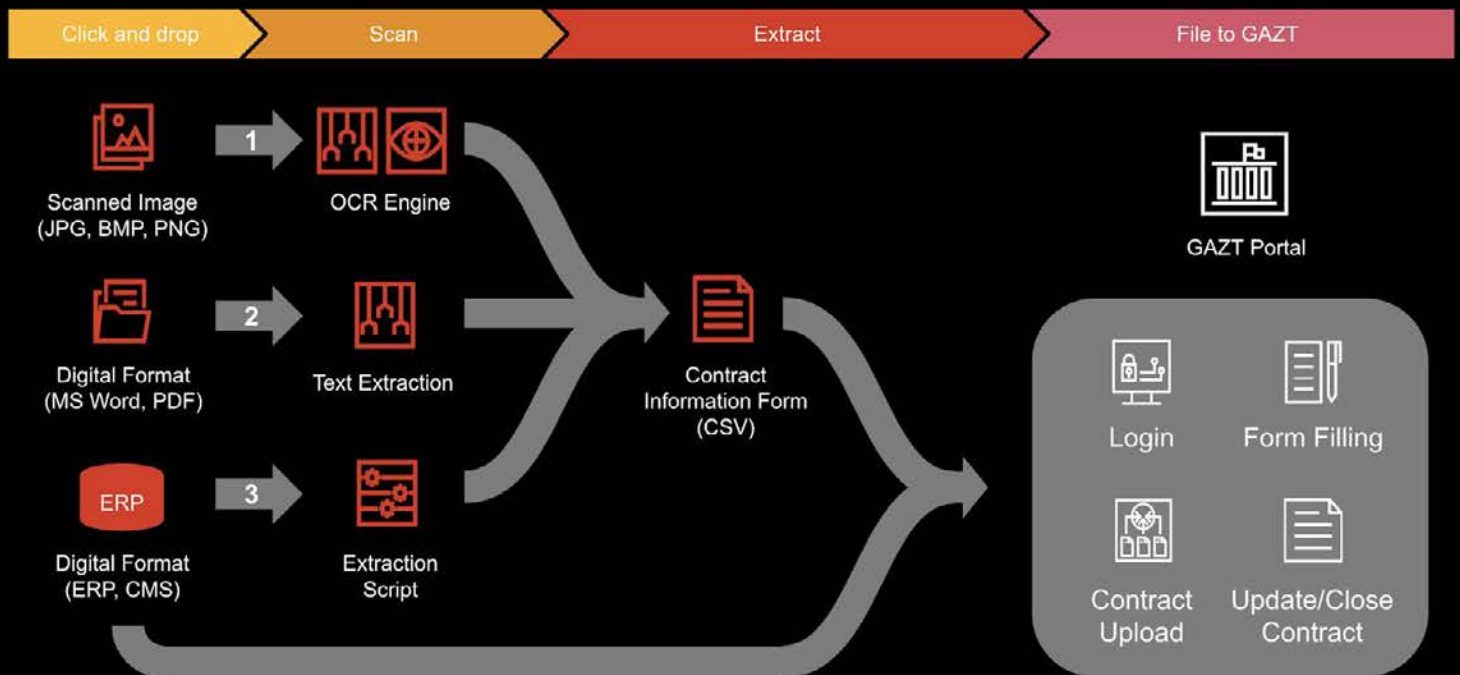

By PwC Digital Solutions

Automate your CIF requirements with CIC

Contract Information Form (CIF) reporting requirements are not new in KSA, however the introduction of fines related to non-compliance of these requirements since July 2020 has greatly increased the amount of time and effort that businesses must spend in order to not only remain compliant, but also to mitigate the risk of large penalties being applied.

PwC's Contract Information Converter (CIC) is an automation tool that significantly reduces the time and effort needed to be spent by your team (or by 3rd party providers), it removes the risk of human error, formats the data automatically and is quick and easy to install.
