

# MFRS Disclosure Checklist for financial year ended 30 June 2023

## About this disclosure checklist

The MFRS disclosure checklist supports preparers to check the compliance of the June 2023 MFRS financial statements with the MFRS disclosure requirements.

This disclosure checklist has been updated to take into account MFRS and IC Interpretations issued or amended by MASB up to 18 August 2023. Disclosure requirements resulting from standards and interpretations that have been issued and are effective for annual periods beginning on or after 1 July 2022 but before 1 January 2023 are included in Sections A to E. Section F sets out the disclosure requirements of standards and interpretations that are effective for annual periods beginning on or after 1 January 2023 but are available for early adoption.

### Disclosure objective

Financial statements are intended to provide information of an entity that is useful to a wide range of users in making economic decisions. If financial information is to be useful, it must be relevant and faithfully represent what it purports to represent. The application of MFRSs, with additional disclosures when necessary, is presumed to result in financial statements that achieve a fair presentation. However, an entity need not provide a specific disclosure required by an MFRS if the information resulting from the disclosure is not material. An entity shall not reduce the understandability of its financial statements by obscuring material information with immaterial information or by aggregating material items that have different nature or function.

### Tips to using this disclosure checklist

- (i) “**Disclosure requirement**” column provides specific guidelines on the disclosure requirements. Preparers are encouraged to refer to the specific requirements in MFRSs when drafting the disclosures. References to MFRSs requirements are provided in the “**Reference**” column. The references represent the paragraphs of the standards in which the disclosure requirements appear – for example, '108p40' indicates MFRS 108 paragraph 40. Additional notes and explanations in the checklist are shown in *italics*, in **grey**.
- (ii) For each disclosure requirement of the selected subjects, preparers can indicate either “**Yes, Not applicable or Not material**” and make reference to the disclosure in financial statements in column “**Reference in financial statements**”:

Options	Description
Yes	Disclosure is included in the financial statements.
Not applicable	The disclosure requirement is not applicable.
Not material	The disclosure of this item is not material to the financial statements.

A3.5.a.1	15p65	Present the effects of financing (interest revenue or interest expense) separately from revenue from contracts with customers in the statement of comprehensive income. A3.5.a.2	15p105 15p108	Receivable Present any unconditional rights to consideration separately as a receivable.  A right to consideration is unconditional if only the passage of time is required before payment of that consideration is due. An entity shall account for a receivable in accordance with MFRS 9.		
A3.5.a.3	15p108	Upon initial recognition of a receivable from a contract with a customer, any difference between the measurement of the receivable in accordance with MFRS 9 and the corresponding amount of revenue recognised shall be presented as an expense (for example, as an impairment loss).

A3.5.a.7	15p109	The standard uses the terms 'contract liability' but does not prohibit an entity from using alternative descriptions in the statement of financial position for those items.		
A3.5.b.		Objective of disclosures

A5.6.4		(iii) period over which management has projected cash flows based on financial budgets/forecasts approved by management and, when a period greater than five years is used for a CGU (or group of CGUs), an explanation of why that longer period is justified;		
A5.6.4		(iv) growth rate used to extrapolate cash flow projections beyond the period covered by the most recent budgets/forecasts, and the justification for using any growth rate that exceeds the long-term average growth rate for the products, industries, or country or countries in which the entity operates, or for the market to which the CGU is dedicated;		
A5.6.4		(v) discount rate(s) applied to the cash flow projections;

A5.6.4		(iiA) the level of the fair value hierarchy (see MFRS 13) within which the fair value measurement is categorised in its entirety (without giving regard to the observability of 'costs of disposal').

A5.6.4		(v) the discount rate(s) applied to the cash flow projections.		
A5.6.4		(f) if a reasonably possible change in a key assumption on which management has based its determination of the CGU's recoverable amount would cause the CGU's carrying amount to exceed its recoverable amount, disclose: (i) amount by which the aggregate of the CGU's recoverable amounts exceeds the aggregate of their carrying amounts;		
A5.6.4		(ii) value assigned to the key assumptions;		
A5.6.4		(iii) amount by which the value assigned to the key assumption must change, after incorporating any consequential effects of that change on the other variables used to measure recoverable amount, in order for the CGU's recoverable amount to be equal to its carrying amount.		
A5.6.5	136p135	If some or all of the carrying amount of goodwill or intangible assets with indefinite lives is allocated across multiple CGUs (or groups of CGUs) and the amount allocated to each CGU (or group of CGUs) is not individually significant, that fact should be disclosed, together with the aggregate carrying amount of goodwill or intangible assets with indefinite lives allocated to those CGUs (or group of CGUs).		
A5.6.6	136p135	If the recoverable amounts of any of those CGUs (or group of CGUs) are based on the same key assumptions, and the aggregate carrying amounts of goodwill or intangible assets with indefinite lives allocated to them is significant, an entity should disclose that fact, together with:

A5.6.6		(e) if a reasonably possible change in the key assumptions would cause the CGU's (or group of CGUs') carrying amount to exceed its recoverable amount: (i) amount by which the aggregate of the recoverable amounts of the CGUs exceeds the aggregate of their carrying amounts;		
A5.6.6		(ii) value assigned to the key assumptions;		
A5.6.6		(iii) amount by which the value assigned to the key assumption must change, after incorporating any effects of that change in the other variables used to measure the recoverable amount, in order for the CGU's (or group of CGUs') recoverable amount to be equal to their carrying amount.		
A5.6.7	136p136	If the most recent detailed calculation of the recoverable amount of a CGU made in a preceding period is carried forward and used in the impairment test for that unit in the current period, the disclosures required in 5 and 6 above relate to the carried forward calculation of recoverable amount.

An entity shall present these costs in accordance with the approach adopted in MFRS 101.

A5.14.1	119p136	<i>To meet the objective in MFRS 119.135, consider all the following:</i> <i>(a) the level of detail necessary to satisfy the disclosure requirements;</i> <i>(b) how much emphasis to place on each of the various requirements;</i> <i>(c) how much aggregation or disaggregation to undertake; and</i> <i>(d) whether users of financial statements need additional information to evaluate the quantitative information disclosed.</i>		
A5.14.2	119p137	<p>If the disclosures provided in accordance with the requirements in MFRS 119 and other MFRSs are insufficient to meet the objective in MFRS 119.135, disclose additional information necessary to meet those objectives.</p> <p><i>For example, an entity may present an analysis of the present value of the defined benefit obligation that distinguishes the nature, characteristics and risks of the obligation. Such a disclosure could distinguish:</i></p> <p><i>(a) between amounts owing to active members, deferred members and pensioners;</i> <i>(b) between vested benefits and accrued but not vested benefits; and</i> <i>(c) between conditional benefits, amounts attributable to future salary increases and other benefits.</i></p>		
A5.14.3	119p138	<p>Assess whether all or some disclosures should be disaggregated to distinguish plans or groups of plans with materially different risks.</p> <p><i>For example, an entity may disaggregate disclosure about plans showing one or more of the following features:</i></p> <p><i>(a) different geographical locations;</i> <i>(b) different characteristics such as flat salary pension plans, final salary pension plans or post-employment medical plans;</i> <i>(c) different regulatory environments;</i> <i>(d) different reporting segments; and</i></p>

A5.14.4		(b) a description of the risks to which the plan exposes the entity, focusing on any unusual, entity-specific or plan- specific risks, and of any significant concentrations of risk. A8.4.3		(b) if the entity believes that the disclosure it has given, either in the statement of financial position or in the notes, to comply with the requirements in paragraph 9(c), 10(a) or 10A(a) or paragraph 5.7.7(a) of MFRS 9 does not faithfully represent the change in the fair value of the financial asset or financial liability attributable to changes in its credit risk, the reasons for reaching this conclusion and the factors it believes are relevant;		
A8.4.3		(c) a detailed description of the methodology or methodologies used to determine whether presenting the effects of changes in a liability's credit risk in other comprehensive income would create or enlarge an accounting mismatch in profit or loss (see paragraphs 5.7.7 and 5.7.8 of MFRS 9). If an entity is required to present the effects of changes in a liability's credit risk in profit or loss (see paragraph 5.7.8 of MFRS 9), the disclosure must include a detailed description of the economic relationship described in paragraph B5.7.6 of MFRS 9.

A8.5.2		(c) the cumulative gain or loss on disposal.		
A8.6.		Reclassification of financial assets and financial liabilities

A8.7.		Offsetting financial assets and financial liabilities		
A8.7.	7p13A 7pIG40D	<p><i>The disclosures in MFRS 7 paras 13B–13E supplement the other disclosure requirements of this MFRS and are required for all recognised financial instruments that are set off in accordance with para 42 of MFRS 132. These disclosures also apply to recognised financial instruments that are subject to an enforceable master netting arrangement or similar agreement, irrespective of whether they are set off in accordance with para 42 of MFRS 132.</i></p> <p><i>The examples in the implementation guidance show disclosures either by counterparty or by type of instrument. A8.7.	7pB40	<i>The disclosures in paragraphs 13B–13E are required for all recognised financial instruments that are set off in accordance with paragraph 42 of MFRS 132. In addition, financial instruments are within the scope of the disclosure requirements in paragraphs 13B–13E if they are subject to an enforceable master netting arrangement or similar agreement that covers similar financial instruments and transactions, irrespective of whether the financial instruments are set off in accordance with paragraph 42 of MFRS 132.</i>		
A8.7.	7pB41	<i>The similar agreements referred to in paragraphs 13A and B40 include derivative clearing agreements, global master repurchase agreements, global master securities lending agreements, and any related rights to financial collateral. 		<i>same institution (unless they are set off in the statement of financial position), and financial instruments that are subject only to a collateral agreement.</i>		
A8.7.1	7p13B	Disclose information to enable users of the entity's financial statements to evaluate the effect or potential effect of netting arrangements on the entity's financial position. This includes the effect or potential effect of rights of set-off associated with the entity's recognised financial assets and recognised financial liabilities that are within the scope of para 13A.		
A8.7.1	7pB53	<i>The specific disclosures required by paragraphs 13C–13E are minimum requirements. To meet the objective in paragraph 13B an entity may need to supplement them with additional (qualitative) disclosures, depending on the terms of the enforceable master netting arrangements and related agreements, including the nature of the rights of set-off, and their effect or potential effect on the entity's financial position.</i>		
A8.7.2	7p13C	To meet the objective in para 13B, disclose, at the end of the reporting period, the following quantitative information separately for recognised financial assets and recognised financial liabilities that are within the scope of para 13A (See para <a href="#">B42</a> , <a href="#">B51</a> and <a href="#">B52</a> ): (a) the gross amounts of those recognised financial assets and recognised financial liabilities (see para <a href="#">B43</a> );		
A8.7.2		(b) the amounts that are set off in accordance with the criteria in para 42 of MFRS 132 when determining the net amounts presented in the statement of financial position (see para <a href="#">B44</a> );		
A8.7.2		(c) the net amounts presented in the statement of financial position (see para <a href="#">B45</a> - <a href="#">B46</a> );		
A8.7.2		(d) the amounts subject to an enforceable master netting arrangement or similar agreement that are not otherwise included in para 13C(b), including: (i) amounts related to recognised financial instruments that do not meet some or all of the offsetting criteria in para 42 of MFRS 132 (see para <a href="#">B47</a> ); and		
A8.7.2		(ii) amounts related to financial collateral (including cash collateral) (see para <a href="#">B48</a> ); and		

Section	Reference	Disclosure requirements	Yes/ Not applicable/ Not material	Reference in financial statements
A8.7.2		(e) the net amount after deducting the amounts in (d) from the amounts in (c) above.		
A8.7.2		The information required by this paragraph should be presented in a tabular format, separately for financial assets and financial liabilities, unless another format is more appropriate.		
A8.7.2	7pB42	<i>Financial instruments disclosed in accordance with paragraph 13C may be subject to different measurement requirements (for example, a payable related to a repurchase agreement may be measured at amortised cost, while a derivative will be measured at fair value). An entity shall include instruments at their recognised amounts and describe any resulting measurement differences in the related disclosures.</i>		
A8.7.2	7pB43	<i>The amounts required by paragraph 13C(a) relate to recognised financial instruments that are set off in accordance with paragraph 42 of MFRS 132. The amounts required by paragraph 13C(a) also relate to recognised financial instruments that are subject to an enforceable master netting arrangement or similar agreement irrespective of whether they meet the offsetting criteria. However, the disclosures required by paragraph 13C(a) do not relate to any amounts recognised as a result of collateral agreements that do not meet the offsetting criteria in paragraph 42 of MFRS 132. Instead, such amounts are required to be disclosed in accordance with paragraph 13C(d).</i>		
	7pB44	<i>Paragraph 13C(b) requires that entities disclose the amounts set off in accordance with paragraph 42 of MFRS 132 when determining the net amounts presented in the statement of financial position. The amounts of both the recognised financial assets and the recognised financial liabilities that are subject to set-off under the same arrangement will be disclosed in both the financial asset and financial liability disclosures. However, the amounts disclosed (in, for example, a table) are limited to the amounts that are subject to set-off. For example, an entity may have a recognised derivative asset and a recognised derivative liability that meet the offsetting criteria in paragraph 42 of MFRS 132. If the gross amount of the derivative asset is larger than the gross amount of the derivative liability, the financial asset disclosure table will include the entire amount of the derivative asset (in accordance with paragraph</i>

		<i>13C(a)) and the entire amount of the derivative liability (in accordance with paragraph 13C(b)). However, while the financial liability disclosure table will include the entire amount of the derivative liability (in accordance with paragraph 13C(a)), it will only include the amount of the derivative asset (in accordance with paragraph 13C(b)) that is equal to the amount of the derivative liability.</i>		
	7pB45	<i>If an entity has instruments that meet the scope of these disclosures (as specified in paragraph 13A), but that do not meet the offsetting criteria in paragraph 42 of MFRS 132, the amounts required to be disclosed by paragraph 13C(c) would equal the amounts required to be disclosed by paragraph 13C(a).</i>		
	7pB46	<i>The amounts required to be disclosed by paragraph 13C(c) must be reconciled to the individual line item amounts presented in the statement of financial position. For example, if an entity determines that the aggregation or disaggregation of individual financial statement line item amounts provides more relevant information, it must reconcile the aggregated or disaggregated amounts disclosed in paragraph 13C(c) back to the individual line item amounts presented in the statement of financial position.</i>		
	7pB47	<i>Paragraph 13C(d) requires that entities disclose amounts that are subject to an enforceable master netting arrangement or similar agreement that are not otherwise included in paragraph 13C(b). Paragraph 13C(d)(i) refers to amounts related to recognised financial instruments that do not meet some or all of the offsetting criteria in paragraph 42 of MFRS 132 (for example, current rights of set-off that do not meet the criterion in paragraph 42(b) of MFRS 132, or conditional rights of set-off that are enforceable and exercisable only in the event of default, or only in the event of insolvency or bankruptcy of any of the counterparties).</i>		
	7pB48	<i>Paragraph 13C(d)(ii) refers to amounts related to financial collateral, including cash collateral, both received and pledged. An entity shall disclose the fair value of those financial instruments that have been pledged or received as collateral. The amounts disclosed in accordance with paragraph 13C(d)(ii) should relate to the actual collateral received or pledged and not to any resulting payables or receivables recognised to</i>

A8.7.2	7pB51	<i>The quantitative disclosures required by paragraph 13C(a)–(e) may be grouped by type of financial instrument or transaction (for example, derivatives, repurchase and reverse repurchase agreements or securities borrowing and securities lending agreements).</i>		
A8.7.2	7pB52	<i>Alternatively, an entity may group the quantitative disclosures required by paragraph 13C(a)–(c) by type of financial instrument, and the quantitative disclosures required by paragraph 13C(c)–(e) by counterparty. If an entity provides the required information by counterparty, the entity is not required to identify the counterparties by name. However, designation of counterparties (Counterparty A, Counterparty B, Counterparty C, etc) shall remain consistent from year to year for the years presented to maintain comparability. Qualitative disclosures shall be considered so that further information can be given about the types of counterparties. When disclosure of the amounts in paragraph 13C(c)–(e) is provided by counterparty, amounts that are individually significant in terms of total counterparty amounts shall be separately disclosed and the remaining individually insignificant counterparty amounts shall be aggregated into one line item.</i>		
A8.7.3	7p13D	The total amount disclosed in accordance with para 13C(d) for an instrument is limited to the amount in para 13C(c) for that instrument. (see para <a href="#">B49</a> )		
A8.7.3	7pB49	<i>When disclosing amounts in accordance with paragraph 13C(d), an entity must take into account the effects of over-collateralisation by financial instrument. To do so, the entity must first deduct the amounts disclosed in accordance with paragraph 13C(d)(i) from the amount disclosed in accordance with paragraph 13C(c). The entity shall then limit the amounts disclosed in accordance with paragraph 13C(d)(ii) to the remaining amount in paragraph 13C(c) for the related financial instrument. However, if rights to collateral can be enforced across financial instruments, such rights can be included in the disclosure provided in accordance with paragraph 13D.</i>		
A8.7.4	7p13E	Include a description in the disclosures of the rights of set-off associated with the entity's recognised financial assets and recognised financial liabilities subject to

A8.7.4	7pB50	<i>An entity shall describe the types of rights of set-off and similar arrangements disclosed in accordance with paragraph 13C(d), including the nature of those rights. For example, an entity shall describe its conditional rights. For instruments subject to rights of set-off that are not contingent on a future event but that do not meet the remaining criteria in paragraph 42 of MFRS 132, the entity shall describe the reason(s) why the criteria are not met. For any financial collateral received or pledged, the entity shall describe the terms of the collateral agreement (for example, when the collateral is restricted).</i>		
A8.7.5	7p13F	If the information required by paras 13B–13E is disclosed in more than one note to the financial statements, cross-refer between those notes.		
A8.8.		Transfers of financial assets		
A8.8.		<i>The disclosure requirements in MFRS 7.42B-42H relating to transfers of financial assets supplement the other disclosure requirements of this MFRS. Present the disclosures required by paras 42B-42H in a single note in the financial statements.</i>  <i>Provide the required disclosures for all transferred financial assets that are not derecognised and for any continuing involvement in a transferred asset, existing at the reporting date, irrespective of when the related transfer transaction occurred.</i>		
A8.8.1	7p42A	For the purposes of applying the disclosure requirements in those paragraphs, transfer all or a part of a financial asset (the transferred financial asset) only if it either: (a) transfers the contractual rights to receive the cash flows of that financial asset; or		
A8.8.1		(b) retains the contractual rights to receive the cash flows of that financial asset but assumes a contractual obligation to pay the cash flows to one or more recipients in an arrangement.

A8.8.2		(b) to evaluate the nature of, and risks associated with, the entity's continuing involvement in derecognised financial assets.		
A8.8.2	7p42C	<p><i>For the purposes of applying the disclosure requirements in MFRS 7.42E-42H, an entity has continuing involvement in a transferred financial asset if, as part of the transfer, the entity retains any of the contractual rights or obligations inherent in the transferred financial asset or obtains any new contractual rights or obligations relating to the transferred financial asset. For the purposes of applying the disclosure requirements in paras 42E-42H, the following do not constitute continuing involvement (See paras <a href="#">B29</a>, <a href="#">B30</a>, <a href="#">B30A</a> &amp; <a href="#">B31</a>):</i></p> <p><i>(a) normal representations and warranties relating to fraudulent transfer and concepts of reasonableness, good faith and fair dealings that could invalidate a transfer as a result of legal action;</i></p> <p><i>(b) forward, option and other contracts to reacquire the transferred financial asset for which the contract price (or exercise price) is the fair value of the transferred financial asset; or</i></p> <p><i>(c) an arrangement whereby an entity retains the contractual rights to receive the cash flows of a financial asset but assumes a contractual obligation to pay the cash flows to one or more entities and the conditions in MFRS 9.3.2.5(a)-(c) are met.</i></p>		
A8.8.2	7pB29	<p><i>The assessment of continuing involvement in a transferred financial asset for the purposes of the disclosure requirements in paragraphs 42E–42H is made at the level of the reporting entity. For example, if a subsidiary transfers to an unrelated third party a financial asset in which the parent of the subsidiary has continuing involvement, the subsidiary does not include the parent's involvement in the assessment of whether it has continuing involvement in the transferred asset in its separate or individual financial statements (ie when the subsidiary is the reporting entity). However, a parent would include its continuing involvement (or that of another member of the group) in a financial asset transferred by its subsidiary in determining whether it has continuing involvement in the transferred asset in its consolidated financial statements (i.e. when the reporting entity is the group).</i></p>		
A8.8.2	7pB30	<i>An entity does not have a continuing involvement in a transferred financial asset if, as</i>

		<p><i>part of the transfer, it neither retains any of the contractual rights or obligations inherent in the transferred financial asset nor acquires any new contractual rights or obligations relating to the transferred financial asset. An entity does not have continuing involvement in a transferred financial asset if it has neither an interest in the future performance of the transferred financial asset nor a responsibility under any circumstances to make payments in respect of the transferred financial asset in the future. The term 'payment' in this context does not include cash flows of the transferred financial asset that an entity collects and is required to remit to the transferee.</i></p>		
A8.8.2	7pB30A	<p><i>When an entity transfers a financial asset, the entity may retain the right to service that financial asset for a fee that is included in, for example, a servicing contract. The entity assesses the servicing contract in accordance with the guidance in paragraphs 42C and B30 to decide whether the entity has continuing involvement as a result of the servicing contract for the purposes of the disclosure requirements. For example, a servicer will have continuing involvement in the transferred financial asset for the purposes of the disclosure requirements if the servicing fee is dependent on the amount or timing of the cash flows collected from the transferred financial asset. Similarly, a servicer has continuing involvement for the purposes of the disclosure requirements if a fixed fee would not be paid in full because of non-performance of the transferred financial asset. In these examples, the servicer has an interest in the future performance of the transferred financial asset. This assessment is independent of whether the fee to be received is expected to compensate the entity adequately for performing the servicing.</i></p>		
A8.8.2	7pB31	<p><i>Continuing involvement in a transferred financial asset may result from contractual provisions in the transfer agreement or in a separate agreement with the transferee or a third party entered into in connection with the transfer.</i></p> <p><i>Transferred financial assets that are not derecognised in their entirety (paragraph 42D)</i></p>

A8.8.a.		(a) Transferred financial assets that are not derecognised in their entirety		
A8.8a.1	7p6, AppB1-B3	<i>When MFRS 7 requires disclosures "by class of financial instrument", group the financial instruments into classes that are appropriate to the nature of the information disclosed, take into account the characteristics of those financial instruments. Sufficient information to permit reconciliation to the line items presented in the statement of financial position should be provided. The classes of financial instruments determined by management for MFRS 7 disclosures are different from the categories of financial instruments specified in MFRS 9 (which determine how financial instruments are measured and where changes in fair value are recognised).</i>		
A8.8.a.1	7p42D	An entity may have transferred financial assets in such a way that part or all of the transferred financial assets do not qualify for derecognition. To meet the objectives set out in MFRS 7.42B(a), disclose at each reporting date for each class of transferred financial assets that are not derecognised in their entirety (see para <a href="#">B32</a> ): (a) the nature of the transferred asset;		
A8.8.a.1		(b) the nature of the risks and rewards of ownership to which the entity is exposed;		
A8.8.a.1		(c) a description of the nature of the relationship between the transferred assets and the associated liabilities, including restrictions arising from the transfer on the reporting entity's use of the transferred assets;		
A8.8.a.1		(d) when the counterparty (counterparties) to the associated liabilities has (have) recourse only to the transferred assets, a schedule that sets out the fair value of the transferred assets, the fair value of the associated liabilities and the net position (the difference between the fair value of the transferred assets and the associated liabilities);		
A8.8.a.1		(e) when the entity continues to recognise all of the transferred assets, the carrying amounts of the transferred assets and the associated liabilities; and		
A8.8.a.1		(f) when the entity continues to recognise the assets to the extent of its continuing involvement (see MFRS 9.3.2.6.(c)(ii) and 3.2.16), the total carrying amount of the original assets before the transfer, the carrying amount of the assets that the entity continues to recognise, and the carrying amount of the associated liabilities.

A8.8.b.1	7p42E	<p>To meet the objectives set out in MFRS 7.42B(b), when an entity derecognises transferred financial assets in their entirety (see MFRS 9.3.2.6(a) and (c)(i)) but has continuing involvement in them, disclose, as a minimum, for each type of continuing involvement at each reporting date (see para <a href="#">B33</a>):</p> <p>(a) the carrying amount of the assets and liabilities that are recognised in the entity's statement of financial position and represent the entity's continuing involvement in the derecognised financial assets, and the line items in which the carrying amount of those assets and liabilities are recognised;</p>

A8.8.b.1	7pB33	<i>Paragraphs 42E–42H require qualitative and quantitative disclosures for each type of continuing involvement in derecognised financial assets. An entity shall aggregate its continuing involvement into types that are representative of the entity's exposure to risks. For example, an entity may aggregate its continuing involvement by type of financial instrument (eg guarantees or call options) or by type of transfer (eg factoring of receivables, securitisations and securities lending).</i>		
A8.8.b.1	7pB34	<i>Paragraph 42E(e) requires an entity to disclose a maturity analysis of the undiscounted cash outflows to repurchase derecognised financial assets or other amounts payable to the transferee in respect of the derecognised financial assets, showing the remaining contractual maturities of the entity's continuing involvement. A8.8.b.1	7pB35	<i>An entity shall use its judgement to determine an appropriate number of time bands in preparing the maturity analysis required by paragraph 42E(e). In that situation, the entity shall also disclose whether the fair value measurements included significant inputs that were not based on observable market data, as described in paragraph 27A.</i>		
A8.8.c.		(c) Supplementary information		
A8.8.c.1	7p42H	Disclose any additional information that it considers necessary to meet the disclosure objectives in MFRS 7.42B. See para <a href="#">B39</a> .

If this is the case, the entity shall disclose whatever additional information is necessary to meet the disclosure objectives. The entity shall decide, in the light of its circumstances, how much additional information it needs to provide to satisfy the information needs of users and how much emphasis it places on different aspects of the additional information. It is necessary to strike a balance between burdening financial statements with excessive detail that may not assist users of financial statements and obscuring information as a result of too much aggregation.</i>

A8.9.4	7p19	If during the period there were breaches of loan agreement terms other than those described in MFRS 7.18, disclose the same information as required by MFRS 7.18 if those breaches permitted the lender to demand accelerated repayment (unless the breaches were remedied, or the terms of the loan were renegotiated, on or before the end of the reporting period).		
A8.10.		Allowance account for credit losses		
A8.10.1	7p16A	The carrying amount of financial assets measured at fair value through other comprehensive income in accordance with paragraph 4.1.2A of MFRS 9 is not reduced by a loss allowance and an entity shall not present the loss allowance separately in the statement of financial position as a reduction of the carrying amount of the financial asset. This disclosure includes the reasons for derecognising those financial assets.		
A8.12.3	9p5.7.7	For a gain or loss on a financial liability designated as at fair value through profit or loss, unless the treatment of the effects of changes in the liability's credit risk set out in (a) below would create or enlarge an accounting mismatch in profit or loss (in which case, MFRS 9 paragraph 5.7.8 applies), present: (a) the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability in other comprehensive income (see MFRS 9 paragraphs B5.7.13–B5.7.20 ); and

A8.13.	7p21C	<i>When paragraphs 22A–24F require the entity to separate by risk category the information disclosed, the entity shall determine each risk category on the basis of the risk exposures an entity decides to hedge and for which hedge accounting is applied. An entity shall determine risk categories consistently for all hedge accounting disclosures.</i>		
A8.13.	7p21D	<i>To meet the objectives in paragraph 21A, an entity shall (except as otherwise specified below) determine how much detail to disclose, how much emphasis to place on different aspects of the disclosure requirements, the appropriate level of aggregation or disaggregation, and whether users of financial statements need additional explanations to evaluate the quantitative information disclosed. A8.15.6		(iii) purchases, sales, issues and settlements (each of those types of changes disclosed separately); and		
A8.15.6		(iv) the amounts of any transfers into or out of Level 3 of the fair value hierarchy, the reasons for those transfers and the entity's policy for determining when transfers between levels are deemed to have occurred (see MFRS 13.95). A8.15.6		(f) for recurring fair value measurements categorised within Level 3 of the fair value hierarchy, the amount of the total gains or losses for the period in (e)(i) included in profit or loss that is attributable to the change in unrealised gains or losses relating to those assets and liabilities held at the end of the reporting period, and the line item(s) in profit or loss in which those unrealised gains or losses are recognised;		
A8.15.6		(g) for recurring and non-recurring fair value measurements categorised within Level 3 of the fair value hierarchy, a description of the valuation processes used by the entity;		
A8.15.6		(h) for recurring fair value measurements categorised within Level 3 of the fair value hierarchy: (i) for all such measurements, a narrative description of the sensitivity of the fair value measurement to changes in unobservable inputs if a change in those inputs to a different amount might result in a significantly higher or lower fair value measurement. If there are interrelationships between those inputs and other observable inputs used in the fair value measurement, provide a description of those interrelationships and of how they might magnify or mitigate the effect of changes in the unobservable inputs on the fair value measurement. To comply with that disclosure requirement, the narrative description of the sensitivity to changes in unobservable inputs includes, at a minimum, the unobservable inputs disclosed when complying with (d); and		
A8.15.6		(ii) for financial assets and financial liabilities, if changing one or more of the unobservable inputs to reflect reasonably possible alternative assumptions would change fair value significantly, state that fact and disclose the effect of those changes.

Examples of policies for determining the timing of transfers include the following:		
A8.15.8		(a) the date of the event or change in circumstances that caused the transfer;		
A8.15.8		(b) the beginning of the reporting period; and

A8.16.2	7p32	The disclosures required by MFRS 7.33-42 focus on the risks that arise from financial instruments and how they have been managed. These risks typically include, but are not limited to, credit risk, liquidity risk and market risk.

A8.16.a.		(a) Qualitative disclosures		
A8.16.a.1	7p33	For each type of risk arising from financial instruments, disclose: (a) the exposures to risk and how they arise;		
A8.16.a.1		(b) objectives, policies and processes for managing the risk and the methods used to measure the risk; and		
A8.16.a.1		(c) any changes in (a) or (b) from the previous period.		
A8.16.b.		(b) Quantitative disclosures		
A8.16.b.1	7p34	For each type of risk arising from financial instruments, disclose: (a) summary quantitative data about its exposure to that risk at the end of the reporting period. A8.16.b.1		(b) the disclosures required by paragraphs MFRS 7.36 – 42, to the extent not provided in accordance with (a).		
A8.16.b.1		(c) concentrations of risk if not apparent from the disclosures made in accordance with (a) and (b).		
A8.16.b.1	7pB7	<i>Paragraph 34(a) requires disclosures of summary quantitative data about an entity's exposure to risks based on the information provided internally to key management personnel of the entity. MFRS 108 Accounting Policies, Changes in Accounting Estimates and Errors discusses relevance and reliability.</i>		
A8.16.b.1	7pB10A	<i>In accordance with paragraph 34(a) an entity discloses summary quantitative data about its exposure to liquidity risk on the basis of the information provided internally to key management personnel. An entity shall explain how those data are determined. If</i>

A8.16.b.2		(b) a description of the shared characteristic that identifies each concentration (for example, counterparty, geographical area, currency or market); and		
A8.16.b.2		(c) the amount of the risk exposure associated with all financial instruments sharing that characteristic.		
A8.16.b.3	7p35	If the quantitative data disclosed as at the end of the reporting period is unrepresentative of the entity's exposure to risk during the period, provide further information that is representative.

A8.16.c.		(b) paragraph 35K(b) does not apply to lease receivables.		
A8.16.c.1	7p35B	<p>The credit risk disclosures made in accordance with paragraphs 35F–35N shall enable users of financial statements to understand the effect of credit risk on the amount, timing and uncertainty of future cash flows.</p> <p>To achieve this objective, disclose:</p> <p>(a) information about an entity's credit risk management practices and how they relate to the recognition and measurement of expected credit losses, including the methods, assumptions and information used to measure expected credit losses;</p>		
A8.16.c.1		(b) quantitative and qualitative information that allows users of financial statements to evaluate the amounts in the financial statements arising from expected credit losses, including changes in the amount of expected credit losses and the reasons for those changes; and		
A8.16.c.1		(c) information about an entity's credit risk exposure (ie the credit risk inherent in an entity's financial assets and commitments to extend credit) including significant credit risk concentrations.		
A8.16.c.2	7p35C	Need not duplicate information that is already presented elsewhere, provided that the information is incorporated by cross-reference from the financial statements to other statements, such as a management commentary or risk report that is available to users of the financial statements on the same terms as the financial statements and at the same time. Without the information incorporated by cross-reference, the financial statements are incomplete.		
A8.16.c.3	7p35D	To meet the objectives in paragraph 35B, except as otherwise specified, consider how much detail to disclose, how much emphasis to place on different aspects of the disclosure requirements, the appropriate level of aggregation or disaggregation, and whether users of financial statements need additional explanations to evaluate the quantitative information disclosed.

A8.16.c.4	7p35E	If the disclosures provided in accordance with paragraphs 35F–35N are insufficient to meet the objectives in paragraph 35B, disclose additional information that is necessary to meet those objectives.		
A8.16.c.5	7p35F	<p><u><i>The credit risk management practices</i></u>  <i>Explain the credit risk management practices and how they relate to the recognition and measurement of expected credit losses.</i></p> <p>To meet this objective, disclose information that enables users of financial statements to understand and evaluate:</p> <p>(a) how an entity determined whether the credit risk of financial instruments has increased significantly since initial recognition, including, if and how:</p> <p>(i) financial instruments are considered to have low credit risk in accordance with paragraph 5.5.10 of MFRS 9, including the classes of financial instruments to which it applies; and</p>		
A8.16.c.5		(ii) the presumption in paragraph 5.5.11 of MFRS 9, that there have been significant increases in credit risk since initial recognition when financial assets are more than 30 days past due, has been rebutted;		
A8.16.c.5		(b) an entity's definitions of default, including the reasons for selecting those definitions (see para <a href="#">B8A</a> );		
A8.16.c.5		(c) how the instruments were grouped if expected credit losses were measured on a collective basis;

A8.16.c.5		(e) an entity's write-off policy, including the indicators that there is no reasonable expectation of recovery and information about the policy for financial assets that are written-off but are still subject to enforcement activity; and		
A8.16.c.5		<p>(f) how the requirements in paragraph 5.5.12 of MFRS 9 for the modification of contractual cash flows of financial assets have been applied, including how an entity (see para <a href="#">B8B</a>):</p> <p>(i) determines whether the credit risk on a financial asset that has been modified while the loss allowance was measured at an amount equal to lifetime expected credit</p>

A8.16.c.5		(ii) monitors the extent to which the loss allowance on financial assets meeting the criteria in (i) is subsequently remeasured at an amount equal to lifetime expected credit losses in accordance with paragraph 5.5.3 of MFRS 9.		
A8.16.c.5	7pB8A	<i>Paragraph 35F(b) requires the disclosure of information about how an entity has defined default for different financial instruments and the reasons for selecting those definitions. In accordance with paragraph 5.5.9 of MFRS 9, the determination of whether lifetime expected credit losses should be recognised is based on the increase in the risk of a default occurring since initial recognition. Information about an entity's definitions of default that will assist users of financial statements in understanding how an entity has applied the expected credit loss requirements in MFRS 9 may include:</i> <i>(a) the qualitative and quantitative factors considered in defining default;</i> <i>(b) whether different definitions have been applied to different types of financial instruments; and</i> <i>(c) assumptions about the cure rate (ie the number of financial assets that return to a performing status) after a default occurred on the financial asset.</i>		
A8.16.c.5	7pB8B	<i>To assist users of financial statements in evaluating an entity's restructuring and modification policies, paragraph 35F(f)(ii) requires the disclosure of information about how an entity monitors the extent to which the loss allowance on financial assets previously disclosed in accordance with paragraph 35F(f)(i) are subsequently measured at an amount equal to lifetime expected credit losses in accordance with paragraph 5.5.3 of MFRS 9. Quantitative information that will assist users in understanding the subsequent increase in credit risk of modified financial assets may include information about modified financial assets meeting the criteria in paragraph 35F(f)(i) for which the loss allowance has reverted to being measured at an amount equal to lifetime expected credit losses (ie a deterioration rate).</i>

A8.16.c.6		(c) changes in the estimation techniques or significant assumptions made during the reporting period and the reasons for those changes.		
A6.16.c.6	7pB8C	<i>Paragraph 35G(a) requires the disclosure of information about the basis of inputs and assumptions and the estimation techniques used to apply the impairment requirements in MFRS 9. A8.16.c.15	7p36	For all financial instruments within the scope of MFRS 7, but to which the impairment requirements in MFRS 9 are not applied, disclose by class of financial instrument: (a) the amount that best represents its maximum exposure to credit risk at the end of the reporting period without taking account of any collateral held or other credit enhancements (that is, netting agreements that do not qualify for offset in accordance with MFRS 132); this disclosure is not required for financial instruments whose carrying amount best represents the maximum exposure to credit risk (see MFRS 8 para B10);		
A8.16.c.15		(b) a description and the financial effect of collateral held as security and other credit enhancements (that is, a description of the extent to which collateral and other credit enhancements mitigate credit risk) in respect of the amount that best represents the maximum exposure to credit risk (whether disclosed in accordance with (a) or represented by the carrying amount of a financial instrument).		
A8.16.c.15	7pB10	<i>Activities that give rise to credit risk and the associated maximum exposure to credit risk include, but are not limited to:</i> (a) <i>granting loans to customers and placing deposits with other entities. In these cases, the maximum exposure to credit risk is the carrying amount of the related financial assets.</i> (b) <i>entering into derivative contracts, eg foreign exchange contracts, interest rate swaps and credit derivatives. When the resulting asset is measured at fair value, the maximum exposure to credit risk at the end of the reporting period will equal the carrying amount.</i> (c) <i>granting financial guarantees. In this case, the maximum exposure to credit risk is the maximum amount the entity could have to pay if the guarantee is called on, which may be significantly greater than the amount recognised as a liability.</i> (d) <i>making a loan commitment that is irrevocable over the life of the facility or is revocable only in response to a material adverse change. A8.16.c.17	7p38	When an entity obtains financial or non-financial assets during the period by taking possession of collateral it holds as security or calling on other credit enhancements (that is guarantees), and such assets meet the recognition criteria in other MFRSs, disclose for such assets held at the reporting date: (a) the nature and carrying amount of the assets; and

		<i>counterparty has the option to require gross settlement), the entity shall state that fact and provide quantitative information that enables users of its financial statements to evaluate the extent of this risk unless that information is included in the contractual maturity analyses required by paragraph 39(a) or (b).</i>		
A8.16.d.1	7pB11	<i>In preparing the contractual maturity analysis for financial liabilities required by MFRS 7.39(a) and (b), use judgement to determine an appropriate number of time bands. For example, an entity might determine that the following time bands are appropriate:</i> <i>(a) no later than one month;</i> <i>(b) later than one month and no later than three months;</i> <i>(c) later than three months and no later than one year; and</i> <i>(d) later than one year and no later than five years.</i>		
A8.16.d.1	7pB11A	<i>In complying with paragraph 39(a) and (b), an entity shall not separate an embedded derivative from a hybrid (combined) financial instrument. For such an instrument, an entity shall apply paragraph 39(a).</i>		
A8.16.d.1	7pB11B	<i>Paragraph 39(b) requires an entity to disclose a quantitative maturity analysis for derivative financial liabilities that shows remaining contractual maturities if the contractual maturities are essential for an understanding of the timing of the cash flows. For example, this would be the case for:</i> <i>(a) an interest rate swap with a remaining maturity of five years in a cash flow hedge of a variable rate financial asset or liability.</i> <i>(b) all loan commitments.</i>		
A8.16.d.1	7pB11C	<i>Paragraph 39(a) and (b) requires an entity to disclose maturity analyses for financial liabilities that show the remaining contractual maturities for some financial liabilities. In this disclosure:</i> <i>(a) when a counterparty has a choice of when an amount is paid, the liability is allocated to the earliest period in which the entity can be required to pay. For example, financial liabilities that an entity can be required to repay on demand (eg demand deposits) are included in the earliest time band.</i> <i>(b) when an entity is committed to make amounts available in instalments, each instalment is allocated to the earliest period in which the entity can be required to pay.</i>

		<p><i>For example, an undrawn loan commitment is included in the time band containing the earliest date it can be drawn down.</i></p> <p><i>(c) for issued financial guarantee contracts the maximum amount of the guarantee is allocated to the earliest period in which the guarantee could be called.</i></p>		
A8.16.d.1	7pB11D	<p><i>The contractual amounts disclosed in the maturity analyses as required by paragraph 39(a) and (b) are the contractual undiscounted cash flows, for example:</i></p> <p><i>(a) gross lease liabilities (before deducting finance charges);</i></p> <p><i>(b) prices specified in forward agreements to purchase financial assets for cash;</i></p> <p><i>(c) net amounts for pay-floating/receive-fixed interest rate swaps for which net cash flows are exchanged;</i></p> <p><i>(d) contractual amounts to be exchanged in a derivative financial instrument (eg a currency swap) for which gross cash flows are exchanged; and</i></p> <p><i>(e) gross loan commitments.</i></p> <p><i>Such undiscounted cash flows differ from the amount included in the statement of financial position because the amount in that statement is based on discounted cash flows. For example, when the amount payable varies with changes in an index, the amount disclosed may be based on the level of the index at the end of the period.</i></p>		
A8.16.d.1	7pB11E	<i>Paragraph 39(c) requires an entity to describe how it manages the liquidity risk inherent in the items disclosed in the quantitative disclosures required in paragraph 39(a) and (b). An entity shall disclose a maturity analysis of financial assets it holds for managing liquidity risk (eg financial assets that are readily saleable or expected to generate cash inflows to meet cash outflows on financial liabilities), if that information is necessary to enable users of its financial statements to evaluate the nature and extent of liquidity risk.</i>		
A8.16.d.1	7pB11F	<i>Other factors that an entity might consider in providing the disclosure required in paragraph 39(c) include, but are not limited to, whether the entity:</i>

		Sensitivity analysis		
A8.16.e.1	7p40, <a href="#">pB17</a> , <a href="#">pB18</a> , <a href="#">pB19</a> , <a href="#">pB21</a> , <a href="#">pB22</a> , <a href="#">pB23</a> , <a href="#">pB24</a> , <a href="#">pB25</a> , <a href="#">pB26</a> , <a href="#">pB28</a>	<p>Unless an entity complies with MFRS 7.41, disclose:</p> <p>(a) a sensitivity analysis for each type of market risk to which the entity is exposed at the end of the reporting period, showing how profit or loss and equity would have been affected by changes in the relevant risk variable that were reasonably possible at that date;</p>		
A8.16.e.1		(b) the methods and assumptions used in preparing the sensitivity analysis; and		
A8.16.e.1		(c) changes from the previous period in the methods and assumptions used, and the reasons for such changes.		
A8.16.e.1	7pB17	<i>Paragraph 40(a) requires a sensitivity analysis for each type of market risk to which the entity is exposed. In accordance with paragraph B3, an entity decides how it</i>		

Section	Reference	Disclosure requirements	Yes/ Not applicable/ Not material	Reference in financial statements
		<p>aggregates information to display the overall picture without combining information with different characteristics about exposures to risks from significantly different economic environments. For example:</p> <p>(a) an entity that trades financial instruments might disclose this information separately for financial instruments held for trading and those not held for trading.</p> <p>(b) an entity would not aggregate its exposure to market risks from areas of hyperinflation with its exposure to the same market risks from areas of very low inflation.</p> <p><i>If an entity has exposure to only one type of market risk in only one economic environment, it would not show disaggregated information.</i></p>		
A8.16.e.1	7pB18	<p>Paragraph 40(a) requires the sensitivity analysis to show the effect on profit or loss and equity of reasonably possible changes in the relevant risk variable (eg prevailing market interest rates, currency rates, equity prices or commodity prices). For this purpose:</p> <p>(a) entities are not required to determine what the profit or loss for the period would have been if relevant risk variables had been different. Instead, entities disclose the effect on profit or loss and equity at the end of the reporting period assuming that a reasonably possible change in the relevant risk variable had occurred at the end of the reporting period and had been applied to the risk exposures in existence at that date. For example, if an entity has a floating rate liability at the end of the year, the entity would disclose the effect on profit or loss (ie interest expense) for the current year if interest rates had varied by reasonably possible amounts.</p> <p>(b) entities are not required to disclose the effect on profit or loss and equity for each change within a range of reasonably possible changes of the relevant risk variable. Disclosure of the effects of the changes at the limits of the reasonably possible range would be sufficient.</p>		
A8.16.e.1	7pB19	<p>In determining what a reasonably possible change in the relevant risk variable is, an entity should consider:</p>		

Section	Reference	Disclosure requirements	Yes/ Not applicable/ Not material	Reference in financial statements
		<p>(a) the economic environments in which it operates. A reasonably possible change should not include remote or 'worst case' scenarios or 'stress tests'. Moreover, if the rate of change in the underlying risk variable is stable, the entity need not alter the chosen reasonably possible change in the risk variable. For example, assume that interest rates are 5 per cent and an entity determines that a fluctuation in interest rates of ±50 basis points is reasonably possible. It would disclose the effect on profit or loss and equity if interest rates were to change to 4.5 per cent or 5.5 per cent. In the next period, interest rates have increased to 5.5 per cent. The entity continues to believe that interest rates may fluctuate by ±50 basis points (i.e. that the rate of change in interest rates is stable). The entity would disclose the effect on profit or loss and equity if interest rates were to change to 5 per cent or 6 per cent. The entity would not be required to revise its assessment that interest rates might reasonably fluctuate by ±50 basis points, unless there is evidence that interest rates have become significantly more volatile.</p> <p>(b) the time frame over which it is making the assessment. The sensitivity analysis shall show the effects of changes that are considered to be reasonably possible over the period until the entity will next present these disclosures, which is usually its next annual reporting period.</p>		
A8.16.e.1	7pB21	An entity shall provide sensitivity analyses for the whole of its business, but may provide different types of sensitivity analysis for different classes of financial instruments.		
A8.16.e.1	7pB22	Interest rate risk arises on interest-bearing financial instruments recognised in the statement of financial position (e.g. debt instruments acquired or issued) and on some financial instruments not recognised in the statement of financial position (e.g. some loan commitments).		
A8.16.e.1	7pB23	Currency risk (or foreign exchange risk) arises on financial instruments that are denominated in a foreign currency, i.e. in a currency other than the functional currency in which they are measured. For the purpose of this MFRS, currency risk does not

		<i>arise from financial instruments that are non-monetary items or from financial instruments denominated in the functional currency.</i>		
A8.16.e.1	7pB24	<i>A sensitivity analysis is disclosed for each currency to which an entity has significant exposure.</i>		
A8.16.e.1	7pB25	<i>Other price risk arises on financial instruments because of changes in, for example, commodity prices or equity prices. To comply with paragraph 40, an entity might disclose the effect of a decrease in a specified stock market index, commodity price, or other risk variable. For example, if an entity gives residual value guarantees that are financial instruments, the entity discloses an increase or decrease in the value of the assets to which the guarantee applies.</i>		
A8.16.e.1	7pB26	<i>Two examples of financial instruments that give rise to equity price risk are (a) a holding of equities in another entity and (b) an investment in a trust that in turn holds investments in equity instruments. Other examples include forward contracts and options to buy or sell specified quantities of an equity instrument and swaps that are indexed to equity prices. The fair values of such financial instruments are affected by changes in the market price of the underlying equity instruments.</i>		
A8.16.e.1	7pB28	<i>Financial instruments that an entity classifies as equity instruments are not remeasured. Neither profit or loss nor equity will be affected by the equity price risk of those instruments. Accordingly, no sensitivity analysis is required.</i>		
A8.16.e.2	7p41, pB20	<p><i>If the entity prepares a sensitivity analysis, such as value at risk, that reflects interdependencies between risk variables (for example, interest rates and exchange rates) and uses it to manage financial risks, it may use that sensitivity analysis in place of the analysis specified in MFRS 7.40.</i></p> <p><i>Also disclose:</i></p> <p>(a) an explanation of the method used in preparing such a sensitivity analysis, and of the main parameters and assumptions underlying the data provided; and</p>		
A8.16.e.2		(b) an explanation of the objective of the method used and of limitations that may result in the information not fully reflecting the fair value of the assets and liabilities involved.

A8.16.e.2	7pB27	<i>In accordance with paragraph 40(a), the sensitivity of profit or loss (that arises, for example, from instruments measured at fair value through profit or loss) is disclosed separately from the sensitivity of other comprehensive income (that arises, for example, from investments in equity instruments whose changes in fair value are presented in other comprehensive income).</i>		
		Other market risk disclosures		
A8.16.e.3	7p42	When the sensitivity analyses disclosed in accordance with MFRS 7.40 or MFRS 7.41 are unrepresentative of a risk inherent in a financial instrument (for example, because the year-end exposure does not reflect the exposure during the year), disclose that fact and the reason the sensitivity analyses are unrepresentative.		
A8.17.		Capital disclosures		
A8.17.1	101p134	Disclose information that enables users of its financial statements to evaluate its objectives, policies and processes for managing capital.		
A8.17.2	101p135	To comply with paragraph 134, disclose the following: (a) qualitative information about its objectives, policies and processes for managing capital, including (but not limited to): (i) a description of what it manages as capital;		
A8.17.2		(ii) when an entity is subject to externally imposed capital requirements, the nature of those requirements and how those requirements are incorporated into the management of capital; and		
A8.17.2		(iii) how it is meeting its objectives for managing capital;		
A8.17.2		(b) summary quantitative data about what it manages as capital. Some entities regard some financial liabilities (for example, some forms of subordinated debt) as part of capital. Other entities regard capital as excluding some components of equity (for example, components arising from cash flow hedges);		
A8.17.2		(c) any changes in (a) and (b) from the previous period;		
A8.17.2		(d) whether during the period it complied with any externally imposed capital requirements to which it is subject; and

A8.17.3	101p136	<p>An entity may manage capital in a number of ways and be subject to a number of different capital requirements. For example, a conglomerate may include entities that undertake insurance activities and banking activities, and those entities may also operate in several jurisdictions.</p> <p>When an aggregate disclosure of capital requirements and how capital is managed would not provide useful information or distorts a financial statement user's understanding of an entity's capital resources, the entity should disclose separate information for each capital requirement to which the entity is subject.</p>		
A8.17.4	101p80A(a)	<p>If an entity has reclassified a puttable financial instrument classified as an equity instrument between financial liabilities and equity, disclose the following:</p> <p>(a) the amount reclassified into and out of each category (financial liabilities and equity); and</p>

A9.2	IC17p17	If the entity declares a dividend to distribute a non-cash asset after the end of a reporting period but before the financial statements are authorised for issue, disclose: (a) the nature of the asset to be distributed;		
A9.2		(b) the carrying amount of the asset to be distributed as of the end of the reporting period; and		
A9.2		(c) whether fair values are determined, in whole or in part, directly by reference to published price quotations in an active market or are estimated using a valuation technique and the method used to determine fair value and, when a valuation technique is used, the assumptions applied.

B10.1		<p>(ii) if the cedant defers and amortises gains and losses arising on buying reinsurance, the amortisation for the period and the amounts remaining unamortised at the beginning and end of the period;</p>

		(a) objectives, policies and processes for managing risks arising from insurance contracts and the methods used to manage those risks;		
B10.2	4p39(c)	(b) information about insurance risk (both before and after risk mitigation by reinsurance), including information about: (i) sensitivity to insurance risk (see MFRS 4.39A) of profit or loss and equity to changes in variables that have a material effect on them;		
B10.2		(ii) concentrations of insurance risk, including a description of how management determines concentrations and a description of the shared characteristic that identifies each concentration (for example, type of insured event, geographical area, or currency);		
B10.2		(iii) actual claims compared with previous estimates (claims development). The disclosure about claims development shall go back to the period when the earliest material claim arose for which there is still uncertainty about the amount and timing of the claims payments, but need not go back more than 10 years. An insurer need not disclose this information for claims for which uncertainty about the amount and timing of claims payments is typically resolved within one year;		
B10.2	4p39(d)	(c) Information about credit risk, liquidity risk and market risk that MFRS 7.31-42 would require if the insurance contracts were within the scope of MFRS 7: (i) an insurer need not provide the maturity analysis required by MFRS 7.39(a) if it discloses information about the estimated timing of the net cash outflows resulting from recognised insurance liabilities instead. This may take the form of an analysis, by estimated timing, of the amounts recognised in the statement of financial position; and		
B10.2		(ii) if an insurer uses an alternative method to manage sensitivity to market conditions, such as an embedded value analysis, it may use that sensitivity analysis to meet the requirement in MFRS 7.40(a). Such an insurer should also provide the disclosures required by MFRS 7.41; and		
B10.2	4p39(e)	(d) information about exposures to market risk arising from embedded derivatives contained in a host insurance contract if the insurer is not required to, and does not, measure the embedded derivatives at fair value.		

Section	Reference	Disclosure requirements	Yes/ Not applicable/ Not material	Reference in financial statements
B10.3	4p39A	To comply with MFRS 4.39(c)(i), disclose either (a) or (b) as follows: (a) a sensitivity analysis that shows how profit or loss and equity would have been affected had changes in the relevant risk variable that were reasonably possible at the end of the reporting period occurred; the methods and assumptions used in preparing the sensitivity analysis; and any changes from the previous period in the methods and assumptions used. However, if an insurer uses an alternative method to manage sensitivity to market conditions, such as an embedded value analysis, it may meet this requirement by disclosing that alternative sensitivity analysis and the disclosures required by MFRS 7.41; or		
B10.3		(b) qualitative information about sensitivity, and information about those terms and conditions of insurance contracts that have a material effect on the amount, timing and uncertainty of the insurer's future cash flows.		
B10.4	7p30	Some financial assets and financial liabilities contain a discretionary participation feature as described in MFRS 4. If an entity cannot measure reliably the fair value of that feature, disclose that fact together with a description of the contract, its carrying amount, an explanation of why fair value cannot be measured reliably, information about the market for the instrument, information about whether and how the entity intends to dispose of the instrument and, if financial instruments whose fair value previously could not be reliably measured are derecognised, that fact, their carrying amount at the time of derecognition, and the amount of gain or loss recognised.		
B10.5	4p35(b)	The issuer need not disclose the amount that would result from applying MFRS 9 to the guaranteed element of a participation feature, nor does it need to present that amount separately. The issuer need not determine that amount if the total liability recognised is clearly higher.		
B10.5	4p35(d)	The requirements in MFRS 4 para 34 also apply to a financial instrument that contains a discretionary participation feature. Although these contracts are financial instruments, an issuer applying paragraph 20(b) of MFRS 7 to contracts with a discretionary participation feature shall disclose the total interest expense recognised in profit or loss, but need not calculate such interest expense using the effective interest method.

B10.6	4p44	In applying MFRS 4.39(c)(iii) – disclosure of actual claims compared with previous estimates – an entity need not disclose information about claims development that occurred earlier than five years before the end of the first financial year in which it applies MFRS 4.

		holders of the parent entity for the period for each class of ordinary shares that has a different right to share in profit for the period.		
D2.1.3	133p67	Earnings per share is presented for every period for which an statement of comprehensive income is presented. If diluted earnings per share is reported for at least one period, it should be reported for all periods presented, even if it equals basic earnings per share. If basic and diluted earnings per share are equal, dual presentation can be achieved in one line in the statement of comprehensive income.		
D2.1.3	133p67A	If an entity presents items of profit or loss in a separate statement as described in para 10A of MFRS 101 (as amended by IASB in 2011), it presents basic and diluted earnings per share in that separate statement.		
D2.1.4	133p68	An entity that reports a discontinued operation should disclose the basic and diluted amounts per share for the discontinued operation either in the statement of comprehensive income or in the notes to the financial statements.

D2.1.6	133p70(a)	Disclose: (a) Amounts used as the numerators in calculating basic and diluted earnings per share, and a reconciliation of those amounts to profit or loss attributable to the parent entity for the period. The reconciliation should include the individual effect of each class of instruments that affects earnings per share.		
D2.1.6	133p70(b)	(b) Weighted average number of ordinary shares used as the denominator in calculating basic and diluted earnings per share, and a reconciliation of these denominators to each other. The reconciliation should include the individual effect of each class of instruments that affects earnings per share.		

Section	Reference	Disclosure requirements	Yes/ Not applicable/ Not material	Reference in financial statements
D2.1.6	133p70(c)	(c) instruments (including contingently issuable shares) that could potentially dilute basic earnings per share in the future, but were not included in the calculation of diluted earnings per share because they are anti-dilutive for the period(s) presented.		
D2.1.7	133p70(d)	Provide a description of ordinary share transactions or potential ordinary share transactions, other than those accounted for in accordance with MFRS 133.64, that occur after the reporting period and that would have changed significantly the number of ordinary shares or potential ordinary shares outstanding at the end of the period if those transactions had occurred before the end of the reporting period.		
D2.1.7		<i>Examples are provided in MFRS 133.71.</i>		
D2.1.8	133p72	The disclosure of the terms and conditions of such financial instruments and other contracts is encouraged, if not otherwise required (refer to MFRS 7).		
D2.1.8		<i>Financial instruments generating potential ordinary shares may incorporate terms and conditions that affect the measurement of basic and diluted earnings per share. These terms and conditions may determine whether any potential ordinary shares are dilutive and, if so, the effect on the weighted average number of shares outstanding and any consequent adjustments to profit or loss attributable to equity holders.</i>		
D2.1.9	133p73	Basic and diluted amounts per share relating to such a component should be disclosed with equal prominence and presented in the notes to the financial statements. An entity should indicate the basis on which the numerator(s) is (are) determined, including whether amounts per share are before tax or after tax. If a component of the statement of comprehensive income is used that is not reported as a line item in the statement of comprehensive income, a reconciliation should be provided between the component used and the line item that is reported in the statement of comprehensive income.		
D2.1.9	133p73	If an entity discloses, in addition to basic and diluted earnings per share, amounts per share using a reported component of the statement of comprehensive income other than one required by MFRS 133, such amounts should be calculated using the weighted average number of ordinary shares determined in accordance with this standard.		

Section	Reference	Disclosure requirements	Yes/ Not applicable/ Not material	Reference in financial statements
D2.1.10	133p73A	If an entity discloses amounts per share using a reported item of profit or loss other than required by MFRS 133, this information should also be disclosed according to MFRS 133.73.		
D2.1.11	133p64	<p>If these changes occur after the reporting period but before the financial statements are authorised for issue, the per share calculations for those and any prior-period financial statements presented should be based on the new number of shares.</p> <p>The fact that per share calculations reflect such changes in the number of shares should be disclosed. In addition, basic and diluted earnings per share of all periods presented should be adjusted for the effects of errors and adjustments resulting from changes in accounting policies, accounted for retrospectively.</p>		
D2.1.11	133p64	If the number of ordinary or potential ordinary shares outstanding increases as a result of a capitalisation, bonus issue or share split, or decreases as a result of a reverse share split, the calculation of basic and diluted earnings per share for all periods presented should be adjusted retrospectively.

Section	Reference	Disclosure requirements	Yes/ Not applicable/ Not material	Reference in financial statements
F1.3.1	17p117	<p>Disclose the significant judgements and changes in judgements made in applying MFRS 17. Specifically, an entity shall disclose the inputs, assumptions and estimation techniques used, including:</p> <p>(a) the methods used to measure insurance contracts within the scope of MFRS 17 and the processes for estimating the inputs to those methods. Unless impracticable, an entity shall also provide quantitative information about those inputs.</p>		
F1.3.1		(b) any changes in the methods and processes for estimating inputs used to measure contracts, the reason for each change, and the type of contracts affected.		
F1.3.1		<p>(c) to the extent not covered in (a), the approach used:</p> <p>(i) to distinguish changes in estimates of future cash flows arising from the exercise of discretion from other changes in estimates of future cash flows for contracts without direct participation features (see paragraph B98);</p>		
F1.3.1		<p>(ii) to determine the risk adjustment for non-financial risk, including whether changes in the risk adjustment for non-financial risk are disaggregated into an insurance service component and an insurance finance component or are presented in full in the insurance service result;</p>		
F1.3.1		(iii) to determine discount rates;		
F1.3.1		(iv) to determine investment components; and		
F1.3.1		(v) to determine the relative weighting of the benefits provided by insurance coverage and investment-return service or by insurance coverage and investment-related service (see paragraphs B119–B119B).		
F1.3.2	17p118	If, applying paragraph 88(b) or paragraph 89(b), an entity chooses to disaggregate insurance finance income or expenses into amounts presented in profit or loss and amounts presented in other comprehensive income, the entity shall disclose an explanation of the methods used to determine the insurance finance income or expenses recognised in profit or loss.		
F1.3.3	17p119	Disclose the confidence level used to determine the risk adjustment for non-financial risk.		

Section	Reference	Disclosure requirements	Yes/ Not applicable/ Not material	Reference in financial statements
F1.3.3	17p119	If the entity uses a technique other than the confidence level technique for determining the risk adjustment for non-financial risk, it shall disclose the technique used and the confidence level corresponding to the results of that technique.		
F1.3.3	17B92	<i>An entity shall apply judgement when determining an appropriate estimation technique for the risk adjustment for non-financial risk. When applying that judgement, an entity shall also consider whether the technique provides concise and informative disclosure so that users of financial statements can benchmark the entity's performance against the performance of other entities. Paragraph 119 requires an entity that uses a technique other than the confidence level technique for determining the risk adjustment for non-financial risk to disclose the technique used and the confidence level corresponding to the results of that technique.</i>		
F1.3.4	17p120	Disclose the yield curve (or range of yield curves) used to discount cash flows that do not vary based on the returns on underlying items, applying paragraph 36. When an entity provides this disclosure in aggregate for a number of groups of insurance contracts, it shall provide such disclosures in the form of weighted averages, or relatively narrow ranges.		
F1.4.		Nature and extent of risks that arise from contracts within the scope of MFRS 17		
F1.4.1	17p122	These disclosures focus on the insurance and financial risks that arise from insurance contracts and how they have been managed. Financial risks typically include, but are not limited to, credit risk, liquidity risk and market risk.		
F1.4.2	17p123	If the information disclosed about an entity's exposure to risk at the end of the reporting period is not representative of its exposure to risk during the period, the entity shall disclose that fact, the reason why the period-end exposure is not representative, and further information that is representative of its risk exposure during the period.		
F1.4.3	17p124	For each type of risk arising from contracts within the scope of MFRS 17, disclose: (a) the exposures to risks and how they arise;		
F1.4.3		(b) the entity's objectives, policies and processes for managing the risks and the methods used to measure the risks; and

F1.4.4	17p125	For each type of risk arising from contracts within the scope of MFRS 17, disclose: (a) summary quantitative information about its exposure to that risk at the end of the reporting period. This disclosure shall be based on the information provided internally to the entity's key management personnel.		
F1.4.4		(b) the disclosures required by paragraphs 127–132, to the extent not provided applying (a) of this paragraph.		
F1.4.5	17p126	Disclose information about the effect of the regulatory frameworks in which it operates; for example, minimum capital requirements or required interest-rate guarantees.		
F1.4.5		If an entity applies paragraph 20 in determining the groups of insurance contracts to which it applies the recognition and measurement requirements of MFRS 17, it shall disclose that fact.		
F1.4.6	17p127	<u>All types of risk – concentration of risk</u> An entity shall disclose information about concentrations of risk arising from contracts within the scope of MFRS 17, including a description of how the entity determines the concentrations, and a description of the shared characteristic that identifies each concentration (for example, the type of insured event, industry, geographical area, or currency). Concentrations of financial risk might arise, for example, from interest-rate guarantees that come into effect at the same level for a large number of contracts. Concentrations of financial risk might also arise from concentrations of non-financial risk; for example, if an entity provides product liability protection to pharmaceutical companies and also holds investments in those companies.		
F1.4.7	17p128	Insurance and market risks - sensitivity analysis An entity shall disclose information about sensitivities to changes in risk variables arising from contracts within the scope of MFRS 17. To comply with this requirement, an entity shall disclose: (a) a sensitivity analysis that shows how profit or loss and equity would have been affected by changes in risk variables that were reasonably possible at the end of the

		<p>reporting period:</p> <p>(i) for insurance risk—showing the effect for insurance contracts issued, before and after risk mitigation by reinsurance contracts held; and</p>		
F1.4.7		(ii) for each type of market risk—in a way that explains the relationship between the sensitivities to changes in risk variables arising from insurance contracts and those arising from financial assets held by the entity.		
F1.4.7		(b) the methods and assumptions used in preparing the sensitivity analysis; and		
F1.4.7		(c) changes from the previous period in the methods and assumptions used in preparing the sensitivity analysis, and the reasons for such changes.		
F1.4.8	17p129	<p>If an entity prepares a sensitivity analysis that shows how amounts different from those specified in paragraph 128(a) are affected by changes in risk variables and uses that sensitivity analysis to manage risks arising from contracts within the scope of MFRS 17, it may use that sensitivity analysis in place of the analysis specified in paragraph 128(a).</p> <p>The entity shall also disclose:</p> <p>(a) an explanation of the method used in preparing such a sensitivity analysis and of the main parameters and assumptions underlying the information provided; and</p>		
F1.4.8		(b) an explanation of the objective of the method used and of any limitations that may result in the information provided.		
F1.4.9	17p130	<p><u>Insurance risk - claims development</u></p> <p>Disclose actual claims compared with previous estimates of the undiscounted amount of the claims (ie claims development).</p> <p>The disclosure about claims development shall start with the period when the earliest material claim(s) arose and for which there is still uncertainty about the amount and timing of the claims payments at the end of the reporting period; but the disclosure is not required to start more than 10 years before the end of the reporting period. The entity is not required to disclose information about the development of claims for</p>

		which uncertainty about the amount and timing of the claims payments is typically resolved within one year.		
F1.4.9		An entity shall reconcile the disclosure about claims development with the aggregate carrying amount of the groups of insurance contracts, which the entity discloses applying paragraph 100(c).		
F1.4.10	17p131	<p><u>Credit risk - other information</u></p> <p>For credit risk that arises from contracts within the scope of MFRS 17, disclose:</p> <p>(a) the amount that best represents its maximum exposure to credit risk at the end of the reporting period, separately for insurance contracts issued and reinsurance contracts held; and</p>		
F1.4.10		(b) information about the credit quality of reinsurance contracts held that are assets.		
F1.4.11	17p132	<p><u>Liquidity risk - other information</u></p> <p>For liquidity risk arising from contracts within the scope of MFRS 17, disclose:</p> <p>(a) a description of how it manages the liquidity risk.</p>		
F1.4.11		<p>(b) separate maturity analyses for portfolios of insurance contracts issued that are liabilities and portfolios of reinsurance contracts held that are liabilities that show, as a minimum, net cash flows of the portfolios for each of the first five years after the reporting date and in aggregate beyond the first five years.</p> <p>An entity is not required to include in these analyses liabilities for remaining coverage measured applying paragraphs 55–59 and paragraphs 69–70A. The analyses may take the form of:</p> <p>(i) an analysis, by estimated timing, of the remaining contractual undiscounted net cash flows; or</p>		
F1.4.11		(ii) an analysis, by estimated timing, of the estimates of the present value of the future cash flows.		
F1.4.11		(c) the amounts that are payable on demand, explaining the relationship between such amounts and the carrying amount of the related portfolios of contracts, if not disclosed applying (b) of this paragraph.

F1.5.		Presentation in the statement of financial position		
F1.5.1	17p78	An entity shall present separately in the statement of financial position the carrying amount of portfolios of: (a) insurance contracts issued that are assets;		
F1.5.1		(b) insurance contracts issued that are liabilities;		
F1.5.1		(c) reinsurance contracts held that are assets; and		
F1.5.1		(d) reinsurance contracts held that are liabilities.		
F1.5.2	17p79	An entity shall include any assets for insurance acquisition cash flows recognised applying paragraph 28B in the carrying amount of the related portfolios of insurance contracts issued, and any assets or liabilities for cash flows related to portfolios of reinsurance contracts held (see paragraph 65(b)) in the carrying amount of the portfolios of reinsurance contracts held.		
F1.6.		Presentation in the statement of financial performance		
F1.6.1	17p80	Applying paragraphs 41 and 42, an entity shall disaggregate the amounts recognised in the statement(s) of profit or loss and other comprehensive income (hereafter referred to as the statement(s) of financial performance) into: (a) an insurance service result (paragraphs 83–86), comprising insurance revenue and insurance service expenses; and		
F1.6.1		(b) insurance finance income or expenses (paragraphs 87–92).		
F1.6.2	17p81	An entity is not required to disaggregate the change in the risk adjustment for non-financial risk between the insurance service result and insurance finance income or expenses. If an entity does not make such a disaggregation, it shall include the entire change in the risk adjustment for non-financial risk as part of the insurance service result.		
F1.6.3	17p82	An entity shall present income or expenses from reinsurance contracts held separately from the expenses or income from insurance contracts issued.

F1.6.4.		Insurance service result		
F1.6.4.1	17p83	An entity shall present in profit or loss insurance revenue arising from the groups of insurance contracts issued. Insurance revenue shall depict the provision of services arising from the group of insurance contracts at an amount that reflects the consideration to which the entity expects to be entitled in exchange for those services. Paragraphs B120 –B127 specify how an entity measures insurance revenue.		
F1.6.4.2	17p84	An entity shall present in profit or loss insurance service expenses arising from a group of insurance contracts issued, comprising incurred claims (excluding repayments of investment components), other incurred insurance service expenses and other amounts as described in paragraph 103(b).		
F1.6.4.3	17p85	Insurance revenue and insurance service expenses presented in profit or loss shall exclude any investment components. An entity shall not present premium information in profit or loss if that information is inconsistent with paragraph 83.		
F1.6.4.4	17p86	An entity may present the income or expenses from a group of reinsurance contracts held (see paragraphs 60–70), other than insurance finance income or expenses, as a single amount; or the entity may present separately the amounts recovered from the reinsurer and an allocation of the premiums paid that together give a net amount equal to that single amount. If an entity presents separately the amounts recovered from the reinsurer and an allocation of the premiums paid, it shall: <ul style="list-style-type: none"> <li>(a) treat reinsurance cash flows that are contingent on claims on the underlying contracts as part of the claims that are expected to be reimbursed under the reinsurance contract held;</li> </ul>		
F1.6.4.4		<ul style="list-style-type: none"> <li>(b) treat amounts from the reinsurer that it expects to receive that are not contingent on claims of the underlying contracts (for example, some types of ceding commissions) as a reduction in the premiums to be paid to the reinsurer;</li> </ul>

F1.7.1		Comparative Information		
F1.7.1.1	17pC3(a)	Unless it is impracticable to do so, or paragraph C5A applies, an entity shall apply IFRS 17 retrospectively, except that: (a) an entity is not required to present the quantitative information required by paragraph 28(f) of IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors.		
F1.7.1.2	17pC25	Notwithstanding the reference to the annual reporting period immediately preceding the date of initial application in paragraph C2(b), an entity may also present adjusted comparative information applying MFRS 17 for any earlier periods presented, but is not required to do so. If an entity does present adjusted comparative information for any earlier periods, the reference to 'the beginning of the annual reporting period immediately preceding the date of initial application' in paragraph C2(b) shall be read as 'the beginning of the earliest adjusted comparative period presented'.		
F1.7.1.3	17pC26	An entity is not required to provide the disclosures specified in paragraphs 93–132 of MFRS 17 for any period presented before the beginning of the annual reporting period immediately preceding the date of initial application.		
F1.7.1.4	17pC27	If an entity presents unadjusted comparative information and disclosures for any earlier periods, it shall clearly identify the information that has not been adjusted, disclose that it has been prepared on a different basis, and explain that basis.		
F1.7.1.5	17pC28	An entity need not disclose previously unpublished information about claims development that occurred earlier than five years before the end of the annual reporting period in which it first applies MFRS 17. However, if an entity does not disclose that information, it shall disclose that fact.		
F1.7.2		Comparative information for entities that first apply MFRS 17 and MFRS 9 at the same time		
F1.7.2.1	17pC28A	An entity that first applies MFRS 17 and MFRS 9 at the same time is permitted to apply paragraphs C28B–C28E (classification overlay) for the purpose of presenting comparative information about a financial asset if the comparative information for that financial asset has not been restated for MFRS 9.		

Section	Reference	Disclosure requirements	Yes/ Not applicable/ Not material	Reference in financial statements
		Comparative information for a financial asset will not be restated for MFRS 9 if either the entity chooses not to restate prior periods (see paragraph 7.2.15 of MFRS 9), or the entity restates prior periods but the financial asset has been derecognised during those prior periods (see paragraph 7.2.1 of MFRS 9).		
F1.7.2.2	17pC28B	<p>An entity applying the classification overlay to a financial asset shall present comparative information as if the classification and measurement requirements of MFRS 9 had been applied to that financial asset.</p> <p>The entity shall use reasonable and supportable information available at the transition date (see paragraph C2(b)) to determine how the entity expects the financial asset would be classified and measured on initial application of MFRS 9 (for example, an entity might use preliminary assessments performed to prepare for the initial application of MFRS 9).</p>		
F1.7.2.3	17pC28C	<p>In applying the classification overlay to a financial asset, an entity is not required to apply the impairment requirements in Section 5.5 of MFRS 9.</p> <p>If, based on the classification determined applying paragraph C28B, the financial asset would be subject to the impairment requirements in Section 5.5 of MFRS 9 but the entity does not apply those requirements in applying the classification overlay, the entity shall continue to present any amount recognised in respect of impairment in the prior period in accordance with MFRS 139 Financial Instruments: Recognition and Measurement. Otherwise, any such amounts shall be reversed.</p>		
F1.7.2.4	17pC28E	<p>An entity that applies paragraphs C28B–C28D shall:</p> <p>(a) disclose qualitative information that enables users of financial statements to understand:</p> <p>(i) the extent to which the classification overlay has been applied (for example, whether it has been applied to all financial assets derecognised in the comparative period);</p>

F1.7.2.4		(b) only apply those paragraphs to comparative information for reporting periods between the transition date to MFRS 17 and the date of initial application of MFRS 17 (see paragraphs C2 and C25)		
F1.7.3		Redesignation of financial assets		
F1.7.3.1	17pC29	At the date of initial application of MFRS 17, an entity that had applied MFRS 9 to annual reporting periods before the initial application of MFRS 17: (a) may reassess whether an eligible financial asset meets the condition in paragraph 4.1.2(a) or paragraph 4.1.2A(a) of MFRS 9. A financial asset is eligible only if the financial asset is not held in respect of an activity that is unconnected with contracts within the scope of MFRS 17. Examples of financial assets that would not be eligible for reassessment are financial assets held in respect of banking activities or financial assets held in funds relating to investment contracts that are outside the scope of MFRS 17.		
F1.7.3.1		(b) shall revoke its previous designation of a financial asset as measured at fair value through profit or loss if the condition in paragraph 4.1.5 of MFRS 9 is no longer met because of the application of MFRS 17.		
F1.7.3.1		(c) may designate a financial asset as measured at fair value through profit or loss if the condition in paragraph 4.1.5 of MFRS 9 is met.		
F1.7.3.1		(d) may designate an investment in an equity instrument as at fair value through other comprehensive income applying paragraph 5.7.5 of MFRS 9.		
F1.7.3.1		(e) may revoke its previous designation of an investment in an equity instrument as at fair value through other comprehensive income applying paragraph 5.7.5 of MFRS 9.		
F1.7.3.2	17pC30	An entity shall apply paragraph C29 on the basis of the facts and circumstances that exist at the date of initial application of MFRS 17. An entity shall apply those designations and classifications retrospectively. In doing so, the entity shall apply the relevant transition requirements in MFRS 9. The date of initial application for that purpose shall be deemed to be the date of initial application of MFRS 17.

If an entity restates prior periods, the restated financial statements must reflect all the requirements of MFRS 9 for those affected financial assets. If an entity does not restate prior periods, the entity shall recognise, in the opening retained earnings (or other component of equity, as appropriate) at the date of initial application, any difference between:</p> <p>(a) the previous carrying amount of those financial assets; and</p>		
F1.7.3.3		(b) the carrying amount of those financial assets at the date of initial application.		
F1.7.3.4	17pC32	<p>When an entity applies paragraph C29, it shall disclose in that annual reporting period for those financial assets by class:</p> <p>(a) if paragraph C29(a) applies—its basis for determining eligible financial assets;</p>		
F1.7.3.4		<p>(b) if any of paragraphs C29(a)–C29(e) apply:</p> <p>(i) the measurement category and carrying amount of the affected financial assets determined immediately before the date of initial application of MFRS 17; and</p>

F1.7.3.4		(c) if paragraph C29(b) applies—the carrying amount of financial assets in the statement of financial position that were previously designated as measured at fair value through profit or loss applying paragraph 4.1.5 of MFRS 9 that are no longer so designated.		
F1.7.3.5	17pC33	<p>When an entity applies paragraph C29, the entity shall disclose in that annual reporting period qualitative information that would enable users of financial statements to understand:</p> <p>(a) how it applied paragraph C29 to financial assets the classification of which has changed on initially applying MFRS 17;</p>		
F1.7.3.5		(b) the reasons for any designation or de-designation of financial assets as measured at fair value through profit or loss applying paragraph 4.1.5 of MFRS 9; and

F1.7.3.6	17pC33A	<p><i>For a financial asset derecognised between the transition date and date of initial application of MFRS 17, an entity may apply paragraphs C28B–C28E (classification overlay) for the purpose of presenting comparative information as if paragraph C29 had been applied to that asset.</i></p> <p>Such an entity shall adapt the requirements of paragraphs C28B–C28E so that the classification overlay is based on how the entity expects the financial asset would be designated applying paragraph C29 at the date of initial application of MFRS 17.</p>		
F1.8.		Disclosures relating to the initial application of MFRS 9 when MFRS 17 and MFRS 9 are adopted at the same time		
F1.8.1	7p42I	In the reporting period that includes the date of initial application of MFRS 9, the entity shall disclose the following information for each class of financial assets and financial liabilities as at the date of initial application:		
F1.8.1		(a) the original measurement category and carrying amount determined in accordance with MFRS 139 or in accordance with a previous version of MFRS 9 (if the entity's chosen approach to applying MFRS 9 involves more than one date of initial application for different requirements);		
F1.8.1		(b) the new measurement category and carrying amount determined in accordance with MFRS 9;		
F1.8.1		(c) the amount of any financial assets and financial liabilities in the statement of financial position that were previously designated as measured at fair value through profit or loss but are no longer so designated, distinguishing between those that MFRS 9 requires an entity to reclassify and those that an entity elects to reclassify at the date of initial application		
F1.8.1		In accordance with paragraph 7.2.2 of MFRS 9, depending on the entity's chosen approach to applying MFRS 9, the transition can involve more than one date of initial application. Therefore this paragraph may result in disclosure on more than one date of initial application. An entity shall present these quantitative disclosures in a table unless another format is more appropriate.		

Section	Reference	Disclosure requirements	Yes/ Not applicable/ Not material	Reference in financial statements
F1.8.2	7p42J	In the reporting period that includes the date of initial application of MFRS 9, an entity shall disclose qualitative information to enable users to understand:		
F1.8.2		(a) how it applied the classification requirements in MFRS 9 to those financial assets whose classification has changed as a result of applying MFRS 9.		
F1.8.2		(b) the reasons for any designation or de-designation of financial assets or financial liabilities as measured at fair value through profit or loss at the date of initial application.		
F1.8.2		In accordance with paragraph 7.2.2 of MFRS 9, depending on the entity's chosen approach to applying MFRS 9, the transition can involve more than one date of initial application. Therefore this paragraph may result in disclosure on more than one date of initial application.		
F1.8.3	7p42K	In the reporting period that an entity first applies the classification and measurement requirements for financial assets in MFRS 9 (ie when the entity transitions from MFRS 139 to MFRS 9 for financial assets), it shall present the disclosures set out in paragraphs 42L–42O of this MFRS as required by paragraph 7.2.15 of MFRS 9.		
F1.8.4	7p42L	When required by MFRS 7 para 42K, an entity shall disclose the changes in the classifications of financial assets and financial liabilities as at the date of initial application of MFRS 9, showing separately: (a) the changes in the carrying amounts on the basis of their measurement categories in accordance with MFRS 139 (ie not resulting from a change in measurement attribute on transition to MFRS 9); and		
F1.8.4		(a) the changes in the carrying amounts on the basis of their measurement categories in accordance with MFRS 139 (ie not resulting from a change in measurement attribute on transition to MFRS 9); and		
F1.8.4		(b) the changes in the carrying amounts arising from a change in measurement attribute on transition to MFRS 9.		
F1.8.4		The disclosures in MFRS 7 para 42L need not be made after the annual reporting period in which the entity initially applies the classification and measurement requirements for financial assets in MFRS 9.

F1.8.5	7p42M	When required by paragraph 42K, an entity shall disclose the following for financial assets and financial liabilities that have been reclassified so that they are measured at amortised cost and, in the case of financial assets, that have been reclassified out of fair value through profit or loss so that they are measured at fair value through other comprehensive income, as a result of the transition to MFRS 9:		
F1.8.5		(a) the fair value of the financial assets or financial liabilities at the end of the reporting period; and		
F1.8.5		(b) the fair value gain or loss that would have been recognised in profit or loss or other comprehensive income during the reporting period if the financial assets or financial liabilities had not been reclassified.		
F1.8.5		The disclosures in this paragraph need not be made after the annual reporting period in which the entity initially applies the classification and measurement requirements for financial assets in MFRS 9.		
F1.8.6	7p42N	When required by paragraph 42K, an entity shall disclose the following for financial assets and financial liabilities that have been reclassified out of the fair value through profit or loss category as a result of the transition to MFRS 9:		
F1.8.6		(a) the effective interest rate determined on the date of initial application; and		
F1.8.6		(b) the interest revenue or expense recognised.		
F1.8.6		If an entity treats the fair value of a financial asset or a financial liability as the new gross carrying amount at the date of initial application (see paragraph 7.2.11 of MFRS 9), the disclosures in this paragraph shall be made for each reporting period until derecognition. Otherwise, the disclosures in this paragraph need not be made after the annual reporting period in which the entity initially applies the classification and measurement requirements for financial assets in MFRS 9.		
F1.8.7	7p42O	When an entity presents the disclosures set out in paragraphs 42K–42N, those disclosures, and the disclosures in paragraph 25 of this MFRS, must, as at the date of initial application, permit reconciliation between: (a) the measurement categories presented in accordance with MFRS 139 and MFRS

F1.8.7		(b) the class of financial instrument		
F1.8.8	7p42P	On the date of initial application of Section 5.5 of MFRS 9, an entity is required to disclose information that would permit the reconciliation of the ending impairment allowances in accordance with MFRS 139 and the provisions in accordance with MFRS 137 to the opening loss allowances determined in accordance with MFRS 9. For financial assets, this disclosure shall be provided by the related financial assets' measurement categories in accordance with MFRS 139 and MFRS 9, and shall show separately the effect of the changes in the measurement category on the loss allowance at that date.		
F1.8.9	7p42Q	In the reporting period that includes the date of initial application of MFRS 9, an entity is not required to disclose the line item amounts that would have been reported in accordance with the classification and measurement requirements (which includes the requirements related to amortised cost measurement of financial assets and impairment in Sections 5.4 and 5.5 of MFRS 9) of: (a) MFRS 9 for prior periods; and (b) MFRS 139 for the current period.		
F1.8.10	7p42R	In accordance with paragraph 7.2.4 of MFRS 9, if it is impracticable (as defined in MFRS 108) at the date of initial application of MFRS 9 for an entity to assess a modified time value of money element in accordance with paragraphs B4.1.9B–B4.1.9D of MFRS 9 based on the facts and circumstances that existed at the initial recognition of the financial asset, an entity shall assess the contractual cash flow characteristics of that financial asset based on the facts and circumstances that existed at the initial recognition of the financial asset without taking into account the requirements related to the modification of the time value of money element in paragraphs B4.1.9B–B4.1.9D of MFRS 9. An entity shall disclose the carrying amount at the reporting date of the financial assets whose contractual cash flow characteristics have been assessed based on the facts and circumstances that existed at the initial recognition of the financial asset without taking into account the

		requirements related to the modification of the time value of money element in paragraphs B4.1.9B–B4.1.9D of MFRS 9 until those financial assets are derecognised.		
F1.8.11	7p42S	In accordance with paragraph 7.2.5 of MFRS 9, if it is impracticable (as defined in MFRS 108) at the date of initial application for an entity to assess whether the fair value of a prepayment feature was insignificant in accordance with paragraphs B4.1.12(c) of MFRS 9 based on the facts and circumstances that existed at the initial recognition of the financial asset, an entity shall assess the contractual cash flow characteristics of that financial asset based on the facts and circumstances that existed at the initial recognition of the financial asset without taking into account the exception for prepayment features in paragraph B4.1.12 of MFRS 9. An entity shall disclose the carrying amount at the reporting date of the financial assets whose contractual cash flow characteristics have been assessed based on the facts and circumstances that existed at the initial recognition of the financial asset without taking into account the exception for prepayment features in paragraph B4.1.12 of MFRS 9 until those financial assets are derecognised.		
F1.9		Transition for IFRS 17 when an entity has already applied IFRS 9

F1.9.2	9p7.2.42	In the reporting period that includes the date of initial application of these amendments, the entity shall disclose the following information as at that date of initial application for each class of financial assets and financial liabilities that was affected by these amendments: (a) the previous classification, including the previous measurement category when applicable, and carrying amount determined immediately before applying these amendments;		
F1.9.2		(b) the new measurement category and carrying amount determined after applying

		these amendments;		
F1.9.2		(c) the carrying amount of any financial liabilities in the statement of financial position that were previously designated as measured at fair value through profit or loss but are no longer so designated; and		
F1.9.2		(d) the reasons for any designation or de-designation of financial liabilities as measured at fair value through profit or loss.		
<b>F2.</b>		<b>Disclosure of Accounting Policies (Amendments to MFRS 101 'Presentation of Financial Statements' and MFRS Practice Statement 2 'Making Materiality Judgements')</b>		
F2.1	101p117	An entity shall disclose material accounting policy information (see paragraph 7). Accounting policy information is material if, when considered together with other information included in an entity's financial statements, it can reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements.		
F2.2	101p117A	Accounting policy information that relates to immaterial transactions, other events or conditions is immaterial and need not be disclosed. Accounting policy information may nevertheless be material because of the nature of the related transactions, other events or conditions, even if the amounts are immaterial. However, not all accounting policy information relating to material transactions, other events or conditions is itself material.		
F2.3	101p117B	Accounting policy information is expected to be material if users of an entity's financial statements would need it to understand other material information in the financial statements. For example, an entity is likely to consider accounting policy information material to its financial statements if that information relates to material transactions, other events or conditions and: (a) the entity changed its accounting policy during the reporting period and this change resulted in a material change to the information in the financial statements;		
F2.3		(b) the entity chose the accounting policy from one or more options permitted by MFRSs — such a situation could arise if the entity chose to measure investment property at historical cost rather than fair value;		

Section	Reference	Disclosure requirements	Yes/ Not applicable/ Not material	Reference in financial statements
F2.3		(c) the accounting policy was developed in accordance with MFRS 108 in the absence of an MFRS that specifically applies;		
F2.3		(d) the accounting policy relates to an area for which an entity is required to make significant judgements or assumptions in applying an accounting policy, and the entity discloses those judgements or assumptions in accordance with paragraphs 122 and 125; or		
F2.3		(e) the accounting required for them is complex and users of the entity's financial statements would otherwise not understand those material transactions, other events or conditions — such a situation could arise if an entity applies more than one MFRS to a class of material transactions.		
F2.4	101p117C	Accounting policy information that focuses on how an entity has applied the requirements of the MFRSs to its own circumstances provides entity-specific information that is more useful to users of financial statements than standardised information, or information that only duplicates or summarises the requirements of the MFRSs.		
F2.5	101p117D	If an entity discloses immaterial accounting policy information, such information shall not obscure material accounting policy information.		
F2.6	101p122	An entity shall disclose, along with material accounting policy information or other notes, the judgements, apart from those involving estimations (see paragraph 125), that management has made in the process of applying the entity's accounting policies and that have the most significant effect on the amounts recognised in the financial statements.		
<b>F3</b>		<b>International Tax Reform - Pillar Two Model Rules (Amendments to MFRS 112 'Income Taxes')</b>		
F3.1	112p88B	An entity shall disclose separately its current tax expense (income) related to Pillar Two income taxes.		
F3.2	112p88C	In periods in which Pillar Two legislation is enacted or substantively enacted but not yet in effect, an entity shall disclose known or reasonably estimable information that

		helps users of financial statements understand the entity's exposure to Pillar Two income taxes arising from that legislation.		
F3.3	112p88D	<p>To meet the disclosure objective in paragraph 88C, an entity shall disclose qualitative and quantitative information about its exposure to Pillar Two income taxes at the end of the reporting period.</p> <p>This information does not have to reflect all the specific requirements of the Pillar Two legislation and can be provided in the form of an indicative range.</p>		
F3.2		To the extent information is not known or reasonably estimable, an entity shall instead:		
F3.2		<ol style="list-style-type: none"> <li>disclose a statement to that effect; and</li> <li>disclose information about the entity's progress in assessing its exposure.</li> </ol>		
F3.2	112p88D	<p><i>Examples of information an entity could disclose to meet the objective and requirements in paragraphs 88C–88D include:</i></p> <p><i>(a) qualitative information such as information about how an entity is affected by Pillar Two legislation and the main jurisdictions in which exposures to Pillar Two income taxes might exist; and</i></p> <p><i>(b) quantitative information such as:</i></p> <p><i>(i) an indication of the proportion of an entity's profits that might be subject to Pillar Two income taxes and the average effective tax rate applicable to those profits; or</i></p> <p><i>(ii) an indication of how the entity's average effective tax rate would have changed if Pillar Two legislation had been in effect.</i></p>		
FII		<b>Amendments to MFRS effective for annual period beginning on or after 1 January 2024</b>		
F4.		<b>Amendments to MFRS 101 'Presentation of financial statements' (after the issue of the 2022 amendments)</b>		
F4.1.		<b>Classification of Liabilities as Current or Non-current (Amendments to MFRS 101) ('the 2020 amendments')</b>		
F4.1.1	101p75A	<i>Classification of a liability is unaffected by the likelihood that the entity will exercise its right to defer settlement of the liability for at least twelve months after the reporting</i>

If a liability meets the criteria in paragraph 69 for classification as non-current, it is classified as non-current even if management intends or expects the entity to settle the liability within twelve months after the reporting period, or even if the entity settles the liability between the end of the reporting period and the date the financial statements are authorised for issue.</i></p> <p>However, in either of those circumstances, the entity may need to disclose information about the timing of settlement to enable users of its financial statements to understand the impact of the liability on the entity's financial position (see paragraphs 17(c) and 76(d)).</p>		
F4.1.2	101p76	If the following events occur between the end of the reporting period and the date the financial statements are authorised for issue, those events are disclosed as non-adjusting events in accordance with MFRS 110 Events after the Reporting Period:		
		(a) refinancing on a long-term basis of a liability classified as current (see paragraph 72);		
F4.1.2		(b) rectification of a breach of a long-term loan arrangement classified as current (see paragraph 74);		
F4.1.2		(c) the granting by the lender of a period of grace to rectify a breach of a long-term loan arrangement classified as current (see paragraph 75); and		
F4.1.2		(d) settlement of a liability classified as non-current (see paragraph 75A).		
<b>F4.2.</b>		<b>Non-current Liabilities with Covenants (Amendments to MFRS 101) ('the 2022 amendments')</b>		
F4.2.1	101p60, p61	Disclose the borrowings classified between current and non-current portions, in accordance with MFRS 101.69-76B.		
F4.2.2	101p76ZA	In applying paragraphs 69–75, an entity might classify liabilities arising from loan arrangements as non-current when the entity's right to defer settlement of those liabilities is subject to the entity complying with covenants within twelve months after the reporting period (see paragraph 72B(b)). In such situations, the entity shall disclose information in the notes that enables users of financial statements to

		<p>understand the risk that the liabilities could become repayable within twelve months after the reporting period, including:</p> <p>(a) information about the covenants (including the nature of the covenants and when the entity is required to comply with them) and the carrying amount of related liabilities.</p>		
F4.2.2		(b) facts and circumstances, if any, that indicate the entity may have difficulty complying with the covenants—for example, the entity having acted during or after the reporting period to avoid or mitigate a potential breach. Such facts and circumstances could also include the fact that the entity would not have complied with the covenants if they were to be assessed for compliance based on the entity's circumstances at the end of the reporting period.		
<b>F5.</b>		<b>Supplier Finance Arrangements (Amendments to MFRS 107 and MFRS 7)</b>		
F5.1		Statement of cash flows - supplier financing arrangements		
F5.1.1	107p44F	An entity shall disclose information about its supplier finance arrangements (as described in paragraph 44G) that enables users of financial statements to assess the effects of those arrangements on the entity's liabilities and cash flows and on the entity's exposure to liquidity risk.		
F5.1.1	107p44G	<i>Supplier finance arrangements are characterised by one or more finance providers offering to pay amounts an entity owes its suppliers and the entity agreeing to pay according to the terms and conditions of the arrangements at the same date as, or a date later than, suppliers are paid. These arrangements provide the entity with extended payment terms, or the entity's suppliers with early payment terms, compared to the related invoice payment due date. Supplier finance arrangements are often referred to as supply chain finance, payables finance or reverse factoring arrangements. Arrangements that are solely credit enhancements for the entity (for example, financial guarantees including letters of credit used as guarantees) or instruments used by the entity to settle directly with a supplier the amounts owed (for example, credit cards) are not supplier finance arrangements.</i>

F5.1.2	107p44H	<p>To meet the objectives in paragraph 44F, an entity shall disclose in aggregate for its supplier finance arrangements:</p> <p>(a) the terms and conditions of the arrangements (for example, extended payment terms and security or guarantees provided). However, an entity shall disclose separately the terms and conditions of arrangements that have dissimilar terms and conditions.</p>		
F5.1.2		<p>(b) as at the beginning and end of the reporting period:</p> <p>(i) the carrying amounts, and associated line items presented in the entity's statement of financial position, of the financial liabilities that are part of a supplier finance arrangement.</p>		
F5.1.2		<p>(ii) the carrying amounts, and associated line items, of the financial liabilities disclosed under (i) for which suppliers have already received payment from the finance providers.</p>		
F5.1.2		<p>(iii) the range of payment due dates (for example, 30–40 days after the invoice date) for both the financial liabilities disclosed under (i) and comparable trade payables that are not part of a supplier finance arrangement. Comparable trade payables are, for example, trade payables of the entity within the same line of business or jurisdiction as the financial liabilities disclosed under (i). If ranges of payment due dates are wide, an entity shall disclose explanatory information about those ranges or disclose additional ranges (for example, stratified ranges).</p>		
F5.1.2		<p>(c) the type and effect of non-cash changes in the carrying amounts of the financial liabilities disclosed under (b)(i). Examples of non-cash changes include the effect of business combinations, exchange differences or other transactions that do not require the use of cash or cash equivalents (see paragraph 43).</p>		
F5.1.3	7pB11F	<p>Other factors that an entity might consider in providing the disclosure required in MFRS 7 paragraph 39(c) (in relation to quantitative liquidity risk disclosures) include, but are not limited to, whether the entity has accessed, or has access to, facilities under supplier finance arrangements (as described in paragraph 44G of MFRS 107) that provide the entity with extended payment terms or the entity's suppliers with early</p>
