About PwC's Academy

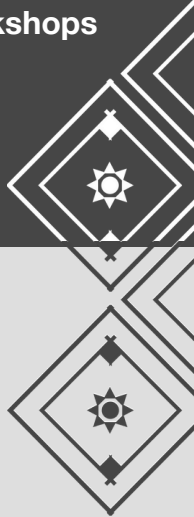

Building skills today, for tomorrow.

PwC's Academy is the skills and talent development arm of PwC Philippines for clients and other organizations. We are committed to bridging the gap between business needs and human capital capabilities.

We continue to build trust in society and solve important problems. We believe that the more we upskill people and help organizations meet their learning needs, the more important problems and business challenges we solve. Through the Academy, our clients become part of our growing community of solvers—making a difference together.

PwC training solutions are based on the practical experience and insights accumulated in working with clients across sectors and geographies, making our programs relevant and immediately applicable in practice. Our instructors are experienced PwC practitioners and industry subject matter experts who have worked with the country's leading organizations to solve important business challenges.

So we can deliver better sustained outcomes and opportunities, we offer **public workshops and bespoke learning solutions.**

The Global Experience: Leverage the global power of PwC to transform your organisation's learning and development

Across our network, over 40 territories currently offer training solutions to clients under the banner of a PwC's Academy.

We share knowledge, resources, and experience so we can bring the value of PwC's global expertise and acumen to you, equipping your people with the competencies, skills, and mindset to highly compete in local and global markets.

Breaking the Barriers Program for Small-Medium Enterprises (SMEs)

Our flagship program

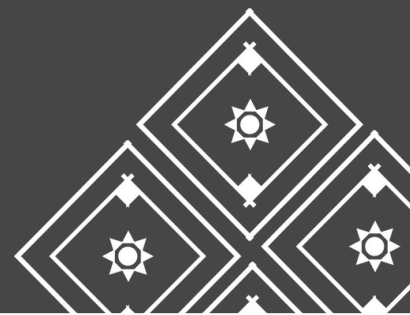

The small-medium enterprises (SMEs) play a huge role in the Philippine economy while providing jobs to our people, but they also faced challenges brought about by the COVID-19 pandemic. Thus, they are looking for ways on how they can build back better. One of the solutions we have found to help them is through upskilling.

PwC Philippines aims to support our SMEs in achieving their growth and sustained outcomes through PwC's Academy's flagship program—Breaking the Barriers.

The **Breaking the Barriers Program** aims to empower our SMEs by upskilling them with the relevant knowledge and practical skills needed to compete in the local market. This upskilling program is anchored to the recent trends and current needs of the local business sector. Our learning facilitators are industry experts who have an in-depth understanding of the pressing challenges of SMEs and have worked with the leading businesses in the country—experiences that ensure knowledge and skills transfer of the subject matter.

Be part of our
growing
community of
solvers and
join the
program!

Corporate Governance Training

Equip your board members and key stakeholders with the necessary skills and knowledge to drive growth and success of your organization through our Corporate Governance training program. Our Corporate Governance Training course will help you explore key concepts, strategies, and trends that drive effective corporate governance in today's volatile and dynamic business landscape.

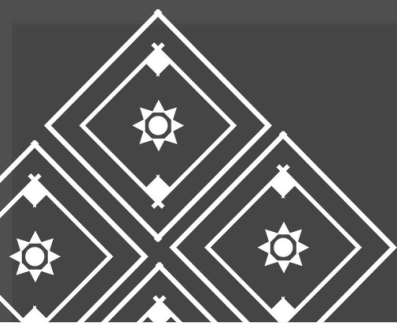

Our team of Subject Matter Experts (SMEs) provides trainings for board members, executives, compliance officers, and other professionals who are interested in enhancing their knowledge of corporate governance principles and practices based on your requirements and needs.

Bespoke Learning Solutions

Training for organizations

We aim to create value to you and your people through upskilling.

As we go through the ever changing times, our learning needs change as well. We constantly adapt our programs to meet the needs of modern business, tailoring them to your objectives, and helping both you and your employees win the local market. We will closely work with you to understanding your learning needs, design compelling programs and learning journeys, and deliver a training solution that addresses your investment objectives.

To further understand your learning needs and to achieve maximum outcomes, we apply the **ADDIE Methodology**.

(A) Analysis: Business focus

Understanding client's organizational goals, objectives, and talent gaps

(D-D) Design and Development: Capability building

Designing the solution and developing the capability program

(I) Implementation: Training delivery

Deliver solutions using the best SME, methodology, and technology

(E) Evaluation: Mindset and change management

Sustain positive change through evaluation and feedback

Our bespoke programs and interventions are designed to help you develop the proper mindset, knowledge, and skills to solve your pressing and future challenges.

Our focus areas:

**Digital and
Future Skills**

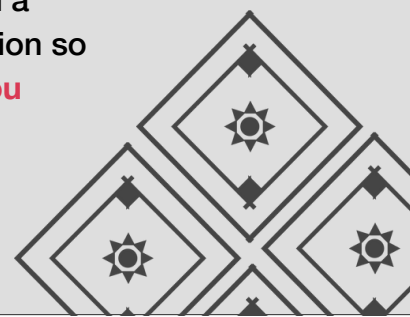

**Accounting
and Finance**

**Tax and
Legal**

Go through our top-notch and proven programs and courses to give you a background of our expertise. We best suggest that we have a conversation so **we can design and deliver the right interventions to you and to help you achieve your objective/s.**

Why partner with PwC?

Our value added to you

Experienced SMEs and learning facilitators

Our subject matter experts (SMEs) are experienced learning facilitators in their respective fields ensuring proper knowledge and skills transfer to our participants.

Leaders with strong business acumen

We aim to create strong business leaders equipped with solid technical and people skills. Our own firm has nurtured homegrown business talents and industry experts while being actively involved in technical consultancy and advisory services.

Professionals equipped with technical knowledge and skills

Our accumulated knowledge and in-depth practical experience in various industries and sectors help make the courses more suitable to your learning needs and relevant and applicable in practice.

We are a community of solvers

Engaging with a PwC expert doesn't mean just engaging with one person. Closely supporting any facilitator or instructor is a community of experts coming together in unexpected ways to offer diverse perspectives on issues and solutions, assuring you that we have all bases covered.

Working with
you in your
upskilling
journey.
