Our client, the Trinidad and Tobago Trade and Investment Promotion Agency invites applicants for the position of:

## Head – Digital and Innovation

The Head - Digital & Innovation is responsible for leading and delivering Agency-wide digital ICT strategy. The incumbent is required to plan, direct and lead the development, operations and maintenance of the ICT resources and infrastructure of the Agency and lead the delivery of its ICT programmes and projects. Work involves developing and executing a roadmap of end-to-end digital experiences, building the capabilities and connections necessary to enhance the Agency's business model into one of building solid investment partnerships and products in a digitally-enabled, data-driven world.

### Qualifications and Experience:

- Bachelor's degree in Computer Science, Information Systems Management, Computer Engineering or related field
- A Masters degree would be an asset
- 7-8 years of experience in Information Technology (IT) with experience in a creative environment with an emphasis on digital strategies
- A minimum of 5 years experience in project management
- Extensive/Expert knowledge of and experience with process mapping, automation and continuous improvement.
- Extensive/Expert knowledge and application of information security principles and regulations.

### Key Accountabilities:

- Plan, direct and coordinate the ICT programmes of the Agency and oversee management and implementation towards achievement of the Agency's goals
- Develop new and innovative business models and assets in the digital space that facilitate and further trade and investment promotion activities
- Provide thought leadership and subject-matter expertise on digital innovation and digital strategy
- Lead the design and implementation of all digital infrastructure elements (network, data, security, applications)
- Direct the development of the security policy, standards and procedures of the Agency and monitors application and compliance
- Draft and recommend operational policy amendments for approval by the CEO
- Oversee the development and maintenance of enterprise applications
